MYSTERY OF TOWNSHIP WATER CONSUMPTION MAY BE SOLVED

Information Placed Before Council To Effect That In Certain Places Service Lines Are Connected Behind The Meter—Lake Street Road Finished—Property Owners Will Have To Pay For Culverts.

For about three years past one of the big worries of North Grimsby council has been the east end water system. To council it has been more or less a mystery as to where all the water was going that the big meter at the town limits was registering through.

Township council members held several meetings with Grimsby Water Commission on the question, even on a couple of occasions trying to persuade the Commission to reduce the rate that they were charging the township for water. The big meter was examined and tested by experts from the factory and finally was taken out and a new meter put in but the flow of aqua pura continued to be well past the million gallons a month mark.

Reading of the domestic meters showed that there was far more water going through the main meter than what was passing through the domestic meters. All that the water user paid for was what his meter showed. Council were at a loss to explain where the water was going. In the meantime the east end system was barely keeping out of the red ink.

From information laid on the table at Saturday's session of council it is quite possible that the mystery may be solved. It is also quite possible that there may be a lot of water users prosecuted. The information at hand was to the effect that certain water users in both the east end and the west end were bypassing the meter or else had service lines hooked up to the feed

MORE NEW EQUIPMENT FOR THE INDEPENDENT

Old Wooden Type Racks And Cases Replaced By Modern Steel Cabinets—Some Cases Dated 1885.

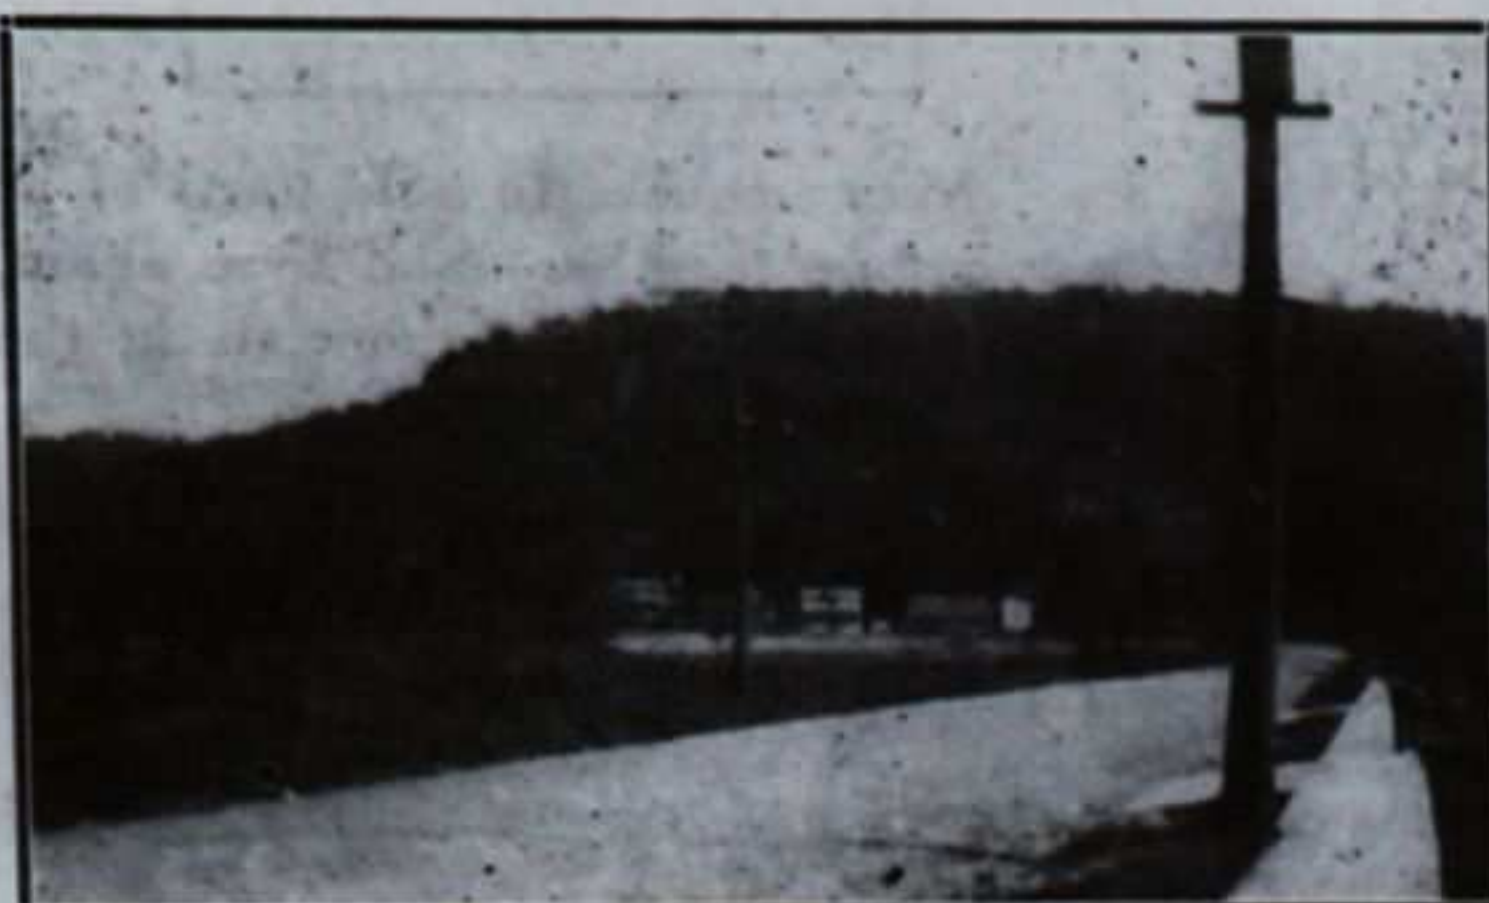

Last week The Independent moved in some new equipment, some of which has been on order for over two years. This new equipment is known as steel type cabinets and replaces the old wooden type racks, some of which had been placed in this office away back in October, 1885.

In making the change-over of the type from the old racks to the new cabinets the boys in the back shop found a shipping tag of the Toronto Type Foundry on one of the old type cases which was addressed to the late Jas. A. Livingston—the date, 1885.

With this change over the last of the old wooden equipment has disappeared from The Independent plant. Everything is now steel or stone with the exception of a few wooden tables.

Like GRIMSBY, The Independent is growing.

A DESOLATE LOOKING SPOT

You should see this same section of Grimsby today. You would never dream that it was once this bare hayfield. Where was this picture taken? When was it taken? There are a lot of people in this town right now that do not recognize their own front and back yard.

CANADIAN MOUNTAINEERS TO BE HERE TO ENTERTAIN YOU

Firemen's Carnival Will Be Bigger And More Glamorous Than Ever Before—Street Dance Will Again Be A Big Feature—July 31 - August 1st.

Next big doings of fun and frolic in the Fruit Belt will be the Firemen's Charity Carnival on the nights of Thursday and Friday, July 31st and August 1st. These doings will be held in Library Park with the big street dance on Friday night being held on Depot street pavement.

Russ Creighton and his Canadian Mountaineers will be back on the job for both nights. He and his gang are Grimsby's Popular Variety Dance Band and Entertainers Extraordinary, and this year will prove no exception to the rule.

The Fire Department this year has gone all out to give the people of Grimsby and district the best entertainment for both nights of their Carnival it is possible to procure. In order to do this they have spent more money than in former years for this part of their annual affair and will have Russ Creighton and his Canadian Mountaineers for the first night as well as the second. This makes for two nights of splendid entertainment.

Jean Sommerville, Dance, Pianist and Acrobatic star; Billy Banton, exponent of Mountain Ballads and his Guitar, "a show in himself"; Joe Clark, Scotch Comedian of renown; Fred Wright, 6 feet of Hurns.

GRIMSBY WEATHER

Week ending at 8 a.m., Monday, July 14th, 1947.

Highest temperature 86.8
Lowest temperature 56.2
Mean temperature 69.3
Precipitation 0.38 inches

DEAR OLD GOLDEN RULE DAYS

Rev. Dr. Arthur L. and Mrs. Charles of Brooklyn, N.Y., have opened their cottage at the Beach for the summer. Dr. Charles is pastor of St. Mark's church in Brooklyn and again will be summer preacher at the Central Presbyterian church in Hamilton.

ARKELL PLANT MODERN ONE

New Processing Factory Only Started Operating Late Last Season Yet Packed 20,000 Cases Of Peaches—Expect To Process A Million Pounds This Year Besides Other Fruits And Vegetables.

(By ART BRYDON)

The food processing plant (canning factory to the layman) of Arkell and Sons is located on No. 8 Highway at Cline road in North Grimsby township. The building is a large cement block and steel construction occupying about ten thousand, five hundred square feet of ground. The factory itself is divided into three separate parts, a warehouse 100x42, the factory part 100x42 and a back-in driveway 50x42 which provides ample space for dry unloading. The upper floor of the factory will be used for storage purposes and for the conveyor belts which move the empty cans to the various parts of the building.

There are two offices located in the building, one for Mr. Arkell and one for the bookkeeper. The factory property consists of about 8 1/2 acres and before the summer is over

CAUSE OF RHEUMATIC FEVER IS UNKNOWN

Treatment Of The Disease Is Strictly A Medical Problem And Usually Involves Long Bed Rest Period.

(By Dr. J. M. Mather, M.O.H., West Lincoln Health Unit)

The Metropolitan Life Insurance Company issues a series of medical pamphlets of a very excellent type. These are for the information of the general public and stress the importance of the various phases of preventive medicine. A recent booklet is devoted to rheumatic fever. This disease has received increasing attention in recent years. If parents understand rheumatic fever and its after effects, they can help the medical profession in its efforts to control this disease, and

FARM SERVICE CAMP FOR WINONA GROWERS

Dining Hall And Sleeping Quarters Being Erected On No. 8 Highway West Of Kelson Avenue.

A group of fruit growers in the Winona district have organized to form the Winona Farm Labour Co-operative Limited.

The Co-operative is establishing a camp located on No. 8 Highway, just west of Kelson Avenue. The camp will consist of a large dining hall, which is being moved from the military camp at Niagara-on-the-Lake, and a number of Neissen huts will provide sleeping quarters for about fifty girls, who will be under the supervision of the Ontario Farm Service Force.

The financing has been arranged—the growers subscribing their share and the Dominion and Provincial governments providing the balance.

It is to be hoped that the camp may be in operation by fall.

STORK MORE POPULAR THAN CUPID IN THE FRUIT BELT

SCHOLARSHIP PUPIL ACCIDENTALLY KILLED

Leonard Rolph Rummery Struck By Car At Collingwood While Holidaying With His Grandfather.

(St. Catharines Standard) Outstanding graduate of Alexandra School last month, Leonard Rolph Rummery, 13, son of Mrs. Marjorie Rummery, 95 Russell Ave., was instantly killed Saturday afternoon near Collingwood. Rolph was holidaying for a week at the cottage owned by his grandfather, John Dawe, Beamsville.

It was reported that he had alighted from a bus with another taller boy. Rolph's view of the road was obscured by his bigger companion, and he walked into the path of a taxi. He suffered multiple injuries, and died of a fractured skull.

CONTRACT LET FOR SEWER CONSTRUCTION

Work On Aitchison Survey Will Be Done By Lorenza Construction Co. — Sewer For Gibson Ave.

Town Council met in special session on Tuesday evening to consider the tenders that had been submitted by contractors for certain construction work in the Aitchison Terrace survey.

The tenders submitted call for construction work as follows:

(a) The construction of about 1,150 feet of 6" water main and about 660 feet of 4" water main, with valves and fire hydrants.

(b) The construction of about 280 feet of 12" combined sewer.

For The First Half Of Year 105 Babies Came Into The World At West Lincoln Memorial Hospital—'Sandy' Globe A 'Grandfather' Many Times Over.

As recorded in these columns the past two issues, down in St. Catharines the Stork has been taking the honors away from Cupid for being the all-star symbol of the month of June. The County Town records prove that babies were more popular than brides during the month of roses.

Not to be outdone by our neighboring city West Lincoln Memorial hospital has also been making a few records along this line, but for a longer period. For the first six months of 1947 no less than 105 little cherubs were welcomed into this world by Matron Douglas McRobbie and her most excellent staff.

June also proved to be the record month of the half year with 26 births. April was the low month with eight. Of the 105 new "grandchildren" for "Sandy" Globe, 59 were males and 46 were females.

The break-down for the half year is as follows:

	Males	Females	Total
Jan.	6	10	16
Feb.	10	10	20
Mar.	14	9	23
April	5	3	8
May	9	3	12
June	15	11	26
	59	46	105

CORNER STONE LAYING

The laying of the corner stone of the new home for the blind, 211 Queenston St., St. Catharines, will take place at 4 p.m. on Thursday, July 17th. Col. E. A. Baker, managing director of the C.N.I.B. will give a short address. It is hoped that as many as possible interested friends will attend.

Cherry Crop This Year Is 'A Magnificent One'—Peaches Will Be Good Crop While Plums And Pears Will Be Fairly Heavy—Grapes Will Produce Tremendous Tonnage—200 Acres Of Solid Fruit.

Did you ever ride in a Jeep, not in army service but in civilian life? Well, the Editor of Lincoln's Leading Weekly rode in one for three solid hours on Sunday afternoon, and during that space of time he believes that he covered every acre of the gigantic 200 acres of fruit farm operated by Jack Puddicombe and his son, Lewis, at the Fifty.

It was a pleasurable ride through the rows upon rows of peach, pear, plum and cherry trees and the vineyards, not to mention the thousands of currant and gooseberry bushes that were planted not only in patches but between the trees.

Fruit growers and government officials estimate the cherry crop throughout the whole Niagara Peninsula at about 20 per cent of a crop. A visit to the Puddicombe orchards would belie that estimate, but unfortunately other growers throughout the district have not the crop, or anywhere near the crop that is now being picked on this massive farm. Sour cherries are not too heavy, but sweet cherries of all varieties are a tremendous crop. The limbs are bending low with the weight of the fruit which is just hanging there in solid clusters. It is a magnificent sight. This not only applies on the home 100 acres but on the two 50 acre blocks on the Queen Elizabeth Highway.

Peaches are a good crop, so much so that they are thinning 50 per cent or more, under some trees the ground is covered with the thinned-off peaches. Elbertas will be a fair crop but if they size up at the rate that they are sizing now then the crop will be almost equal to a full crop.

Plums with the exception of Grand Dukes and Black Diamonds

CHARLIE BURGESS CAN SOLVE THIS PROBLEM

"Which Ear Is The Left Ear Of A Fox?" — Township Clerk's Have Ear Trouble

Brantford, July 9—To how long is a piece of string and why does a chicken cross the road, add which is a fox's left ear.

Township clerk's in Brant County would like to know, because that is the ear, says the county council they are to pay a \$5 bounty on. The council, however, failed to state whether the clerk's had to look at the fox from the front or the rear.

"If you look from the front end the left ear is on the left side, but if you look from the back end the left ear is on the opposite side," the clerk's state in some despair.

They haven't got the foggiest notion why the council chose the left ear as proof of bounty paid on a fox, but it seems now that the county council will have to pass a resolution or make an amendment to the by-law instructing clerk's that it is the south end of a fox going north or vice versa at which they will have to look when choosing left ears.

GRIMSBY HIGH SCHOOL CADET BAND

It is a long time since these kids sat in this classroom. In what room in what school was this photo taken? How long ago was it taken? These kids are now all successful men and women and they are not in their early 20's, either.

FACTS & FANCIES

Frank Fairborn, Jr.

BOOK OF REMEMBRANCE

Mayor Bull is to be congratulated upon his suggestion to Town Council that a Book of Remembrance to the men and women of Grimsby and North Grimsby in the Second Great War be prepared and placed in one of the local churches, a different church each year.

Within that book would be inscribed the name and all information of each individual who had done his duty. A single page for each one, with particular attention paid to the boys who made the Supreme Sacrifice.

A book record, not as complete as this one would be, was compiled by the late Charlie Bromley, of all the men who served in the First Great War. That book is safely guarded in the archives by Clerk G. G. Bourne.

It is to be hoped that council, with the help of Reeve M. S. Nelles and the members of North Grimsby Council, that this work will be carried forward forthwith.

A WORTHWHILE SUGGESTION

In the "Letters To The Editor" column this week will be found an epistle concerning the changing of the name of Kingsway Boulevard, in the Aitchison Survey, to Aitchison Boulevard.

When this letter, particularly from this writer, came to my desk, it caused me to do a lot of thinking, incidentally it caused me to get mad at myself, for I had talked over this survey proposition with "Jim" many, many times before he put the project before Town Council.

I agree with the writer of this letter "that there was some sound reason why he named the boulevard Kingsway," but being the modest man, that he was, it is quite easy to understand why he did so, although if I had of had brains enough at the time I think I could have changed his mind and named that street Aitchison.

I honestly believe that the name of that boulevard should be changed to Aitchison. Town Council in so doing would not be setting a precedent. There are 27 streets in Grimsby and 17 of that number are named after people, men and women who made their mark in the development of Grimsby, and, surely "Jim" Aitchison has left an indelible mark upon this community.

To be brief just let me cite the names of the streets of this town that are named after people. The list of all streets in Grimsby and their origin appeared in "Away Back When" two years ago. Here is your list:

Kerman (included because it is a border line street between the town and the township). Kidd, Bolton, Livingston, Nelles, Murray, Gibson, Paton, Ferguson, Olive, Elizabeth, Clarke, Victoria, Adelaide, Doran, John and Robinson.

The 10 streets that were just named without any sentimental or honorable achievement motive, are Main, Elm, St. Andrew's, Mountain, Oak, Maple, Lake, Depot, Ontario and Fairview.

Possibly Mrs. Aitchison and Mrs. E. J. Marsh and the Aitchison family would not like the name changed, and I hope that they take the suggestion from the letter writer and my remarks in the wholesome manner in which they are offered.

At the same time I believe that it should be done. It is only a matter of a simple by-law through town council and a change in the registry office. But I believe that the name of Aitchison through "Jim" should be perpetuated in this town, where through almost half a century he did a grand and noble work for his fellow man.

MAIL DELIVERY IN GRIMSBY

At last Wednesday night's meeting of Town Council, Deputy-Reeve Price had the temerity to sponsor a motion asking the Postmaster General of Canada to establish free delivery of mail within the town limits of this thriving metropolis.

I doubt very much if "A. C." had known what I knew that he would have brought such a motion forward. Possibly he may get

away with it without being scarified, but I didn't.

Just a year ago now this column came out and advocated the establishment of mail boxes at certain strategic points in the town for the convenience of the citizens and a pick-up system and follow this suggestion up with the mail delivery idea.

I never came back with the second editorial. The first one brought me enough scuffling from not one but 20 merchants, that if such a thing should happen then all business in town would be ruined.

Their main argument was that if the housewife did not come up to Main Street for the mail then she would not be doing as much shopping as she would if she came for the mail. I let them have their own innocent way, knowing all the time, that outside the business section, that more than 75 per cent of all mail taken from the Post Office was collected by the kids of the family and the bargain hunting housewife never laid eyes on it until the kids arrived home with it, if it got home.

The Independent is 100 per cent behind Mr. Price in his endeavour to obtain a mail delivery service in Grimsby, also to secure a pick-up of mail within the town. It can be done. Certain information tells me that it can be done, and insofar as the housewife not coming down or up town to shop, just because there is no mail to pick up, that is all just so much hooey, for how could you keep a housewife away from a bargain counter and all any merchant has to do to get her packing his store, mail or no mail, is advertise the fact in The Independent and he will soon find out what the mail has to do with it.

OLD MAIN ONTARIO IS NO SOCIALIST

(The Canadian Statesman, Bowmanville,

It seems to this editor that in Ontario the C.C.F. is fast going the way of all third parties.

We have just finished a 1500-mile tour of Ontario with a group of American weekly newspaper editors. Everywhere we went we collected views and opinions of ordinary people—farmers, merchants, mechanics, implement dealers, barbers, feed and grain men, newspaper folk, garagemen—and we find the Socialist movement distinctly shrinking, or shrunk.

From C.C.F.'ers, friends of ours, we hear of difficulty in collecting membership fees, of club rooms closing up, of canvassing getting nowhere or stopping altogether, of complaints that Communists are hurting the cause, of political organizations folding up and candidates dropping out. It all adds up to this:

Old Man Ontario is no Socialist. He objects to the Atlee interference with the land laws of England and does not want them repeated here. Communism, Socialism, extremist labor leadership here—all look alike to him. He sees Russia blocking the road to world peace and will take no chances in this country. Demands for higher, even higher wages don't even look funny to him while they're backed by the same C.C.F.'ers who even complain when the farmer gets a bit better price for the butter he sells. And demands for shorter hours exasperate the man who toils 15 hours a day to put in a crop under the worst conditions in 50 years.

There are now large areas of rural Ontario without any C.C.F. organization at all. The Ontario farmer opposes Socialism, social-

CRIME NEWS

We are proud to say that, through our newspapers, we are the best informed nation in the world. That may be so, but we are reluctant to admit that we are also, through our newspapers, the most ill-advised nation in the world. There are two reasons for this: one is the traditional policy set by the publishers and editors determining what is the most important news and what manner is best to present it as news.

These questions are answered when you pick up your daily paper and see what form of human misery was "newsy" enough to catch the editor's eye and be touched up to meet with the requirements of front-page sensationalism.

It is there that will be found the latest murder, kidnapping, bank robbery, and many other instances of violence and lawlessness. In every case, however, it will be noted that latest acts were more vicious, more daring, more atrocious, etc., than those committed yesterday or last week.

The offenders, usually ordinary citizens, are glamorized by characterizations concocted at the desk of the re-write man pressured by a news-hungry editor. . . . By these characterizations, deliberately created for the purpose of sensationalism, the American character is degraded. It is to this end that the freedom of the press is exercised.

No one will deny that it is the duty of the editor to report on the occurrence of a crime, but one certainly can question the manner of its presentation. What purpose is accomplished by the persistent revelation of evil? The answer is to be found in the contrast between the journalistic debaucheries of human perversity found on the front page, and the indignant and sanctimonious exhortations,

ization, nationalization. He does not intend to relinquish control over his own land and his own work, and he's the very last man in all Canada to want to see his local bank manager become a civil servant. Ontario is quite definitely getting back to the two-party system.

THE SIXTH QUEEN

No doubt many people are intrigued today in the memory test as to Princess Elizabeth becoming the sixth Queen of Britain, in the event that she is spared for her succession. Everyone can recall easily enough Mary, Elizabeth, Anne and Victoria, but what name makes the fifth?

Consulting Whitaker, we find that Lady Jane Grey, granddaughter of Mary, younger sister of Henry the Eighth, was Queen, 1553-1554, and reigned only 14 days. She was beheaded. Mary came next in line and reigned five years, and was succeeded by Elizabeth, who gave England a golden age for 44 years.

Letters to the Editor

To the Editor,

The Independent:

The citizens of Grimsby have never been slow to honor those to whom honor is due, there are exceptions, however, when family wishes have to be respected.

Through the foresight and perseverance of the late James Aitchison, we have our up to date, well equipped library, the pride of our town.

He also promoted and was inspired by the vision in the near future of a beautiful residential district, now known as the Kingsway Boulevard, no doubt named for some sound reason.

Is it too late to have that name changed to "Aitchison Boulevard," as a monument to one who did much for our town?

We have our Livingston Ave. and Murray Street (space will not allow more) named after men, each in his own way, worthy to be remembered.

Thanking the Editor for this space.

An Interested Citizen.

Dear Editor:-

I believe the prosperity of a large section of the population of this and neighboring districts depends on the success or failure of the fruit crop, more so peaches and cherries. For that reason I was surprised to read the advertisements in the local paper offering for sale peaches from California, which it is natural to suppose will be followed by peaches from other parts of the United States. By the time our own peaches come onto the market the Canadian public will have sickened of peaches, and the growers will be left in the hands of the Cannery, who are tough business dealers. More it is not necessary to say.

What is wrong? The individual States of the Union take good care that no other country can do anything to damage the interests of American agriculture by leaving the door open to foreign competition. Least of all, immediately prior to, or during the gathering of any special crop. (Protest of U.S. Congressmen against Canadian Potatoes).

Maybe the Canadian Government has the right to restrict importations of products harmful to Canadian Interior Economy. I wish to make it clear that I am not opposed to the importing of U.S. products during such times that Canadian farmers are not likely to suffer the consequences of such competition.

Should the short supply of American dollars be used to import products harmful to Canadian Economy? Mexico has provided the solution to dollar exchange shortage!

Naturally the economic stability of Fruit Growers is a matter for the local Chamber of Commerce throughout Niagara Fruit Belt.

Inquisitive.

There is no man suddenly good or evil. The process is gradual.

Misery loves company, but remember it loves cheerful company.

An ounce of kyalty is worth a pound of cleverness.

crying for more laws and steeper laws, to be found on the editorial page.

Well, we have more laws and sterner laws, but we also have more crime. It is safe to conclude, therefore, that the primary need in effectively combating crime is not through establishing more laws against the people. Not on, but also the free citizen who finds that priceless heritage we call freedom becoming more restricted, excessive legislation. Briefly, the more laws, the less freedom.

If it is laws we need, they should be laws to eliminate the pernicious practice of ballyhooing crime, heralding it as the national pastime. . . . They should be laws by which the dissemination of crime news is minimized and standardized to the essential facts of the individual case. They should be laws that suppress the publicizing of useless speculation, propounded by publicity-seeking police officials, on the development of clues.

These laws would not contro the press or restrict it from printing crime news, but they would prohibit the vulgar exploitation of the true facts of a crime to the degree of fantasy. The achievement of legislation would create a more balanced and truer perspective of community life, by removing crime news from its coveted front-page position and relegating it to back-page summary, reported in a dry and factual manner, stripped of all its lurid details.

Laws such as these, others, regulate crime reporting in England. We have adopted our system of law and let go a step further Britain; it might be well to crime reporting, and assimilate their laws at the Massachusetts State Prison.)

Nuts are used to hold parts of an automobile together—and then again, in Grimsby, some of them sit in the driver's seat.

"Cammy" Millyard amazed at the acrobatic stunts of the Editor's pet mouse.

Bert Flett had some unexpected Foreign Diplomatic visit him on Friday afternoon.

Raspberries in Theal Bros. on Friday morning. The seeds get under my false molars.

Gordon Hannah getting a shampoo and Barber Book getting his fingers full of silvers.

Kids coming out of Jarvis' Bakery licking ice cream cones almost as big as they are.

West End Motors just about closed its doors last week. Ernie Mason was on holidays.

Welcome to Main Street, Scott Fishing Tackle Co. Must feel good to be back on Broadway.

Dalt. Fretz of Orchard Equipment Service, buzzing around town in a new, red Willys jeep.

Myrt, the Watermelon Queen, Carroll's store on Friday and Saturday were selling watermelons faster than groceries.

It's a long walk from Fort Erie. Ask some of the two buck punters. The last mile was the easiest, it was down the mountain.

Congratulations to Mel Johnson. I see that my confrere, Bruce Murdoch, has elected him to Town Council. Won't cousin Bob be mad.

WANTED: Some kind Samaritan to donate a cushion to Old Tom Warner. The Main Street doorsteps are getting harder and colder.

Merchants along the drag raving at this columnist about the dirtiness of the street. My copper plate reply is "I am not on the Town Council."

"Gas" Rahn going up street with two cartons of milk shakes from the Peach Dairy Bar. Store clerks do the same thing plenty, all day long.

Constable George Seymour reports that American tourists obey the rules of the road and the local parking law 100 per cent better than our own people do.

The new addition to the Hotel Grimsby is 100 per cent. Must be because I caught Ma and Dot. McVicar giving it their approval on Thursday afternoon.

A tip to Midas. The cash registers were really tingling on Main Street on Friday and Saturday, which proves conclusively what Independent advertising will do.

There is a trained dog on upper Main that has anything but that Ringling Bros. ever tried to put on a stage. This fellow is really a whizzer and he has a pair of cats that work with him.

By what divine right have the Eaton truck drivers to park on the wrong side of the street and particularly in the space reserved for the buses and lots of times right when the buses are due?

Oh, for a camera. Eight a.m. in the morn. Provincial Constable Teddy Hope, resident in his new summer uniform sitting on the Post Office steps repairing a cap gun for an admiring, little six year old.

A post card from Murray P. and Camilla Biggar reads: "Please be advised that we have changed our address from No. 1 Paton St., Grimsby, Ontario, to R. R. No. 1, Thorndale, Ontario. Business address is Biggar Motor Sales, London, Ontario."

This column slipped and slipped bad. Four weeks ago Supt. of Works Jimmy Lawrie broke his wrist and I never knew a thing about it until last Friday noon. I am either getting old or that young widow has me going around in circles. Boy, if she only had dough.

Last week's council meeting proved a great break for the second best newspaperman in the Fruit Belt. Those tough, hard-boiled city eds on the Spec gave Bruce Murdoch a six column streamer on his story. They only come about three times in a lifetime, especially if asst.-city-ed. Milt has the handling of them out.

DISCOVERED—Never thought it would happen in Grimsby again for it is so long since it happened before. There is a man named Rouse working at the foundry who can be termed an honest man. He found a coat belonging to a prominent citizen. He looked in the pocket and found a wallet that had a considerable sum of money in it as well as identification papers giving the name of the owner. He immediately returned the coat and wallet with everything intact and was suitably rewarded. It is a long time since such a thing as that has happened.

Don't slump down and wait for opportunity to come to your door, go out and drag it in.

POWER TO EARN
Federal health authorities have adopted the slogan "Health is earning power" in many posters and other types of health education material. They point out that, no matter how Canadians earn their daily bread, success will come easier if there is health behind it.
Health provides the power to enable people to earn, they remind the Canadian public, and conversation of health is, therefore, important to the attainment of any goal.

CARNIVAL DRESS

By PRUNELLA WOOD

Vivacious Columbia star Janet Blair looks delectable in her gay carnival dress. Fashioned in silk, it has clowns' hats, masks and fans intermingling in an overall pattern of colored streamers. Corded lace-up front in black, black gloves, black plastic shoes and a turban in the dress material wound round a black crown complete the ensemble.

**Mainly For
MILADY**

STRICTLY CANADIAN

By CLAIRE WALLACE

One of the moot questions brought forward by many Canadian brides, especially at this time of the year, is this: "Who buys the wedding flowers?"

Happy solution!—the expense is divided. The groom pays for the flowers his bride carries or wears to the altar and those she wears on her going-away costume, he buys the bouquet his future mother-in-law wears, as well as flowers to be worn by his own mother. He also provides boutonnieres for himself, his best man and ushers, his father and the bride's father. Then he has done his duty in helping solve the flower problem.

The bride, or her family, is responsible for buying the flowers that decorate the church, flowers for the reception and those carried by the bridal attendants, whether she be maid or matron of honor, bridesmaid, flower girl or a few of each.

But just because the groom bears part of the flower expenses, that doesn't mean he has to shoulder the responsibility of choosing them! He should be spared that and it is important that the bride visit the florist in person (unless a wedding bureau is handling the arrangements, then they will advise). By taking along a sample of her wedding dress material or a description of it, the bride can be sure of a suitable, harmonizing bridal bouquet and by appearing in person, she can give the florist a chance to decide the most becoming shape of it. For instance, a short plump girl should not carry a round bouquet, a delicate spray of flowers will be more becoming and give her a little height. The tall bride can carry a large, full bouquet but it shouldn't be too long for that will only increase her height.

It is well to take a personal interest in the flowers the groom buys the bride for her going-away costume, too. Flowers are supposed to harmonize with any color in frock or suit, but that isn't so and, particularly if she is wearing a flowered hat, the bride has to be careful of the flowers in her bouquet.

The British custom of carrying a white prayer book, instead of a wedding bouquet, is becoming more popular in Canada all the time. To give a bridal effect, narrow white satin ribbon streamers are attached to the prayer book, little white rosebuds or small white flowers knotted into the ribbons every few inches. In this case, bouquets for the bridal attendants should be kept small, to conform in appearance.

Throwing the bouquet is not the universal custom it used to be. If it is done, the bride tosses her flowers to her bridal attendants, standing below, as she mounts the stairs to change into her going-away clothes. The bride's bouquet has always been a coveted catch because of the superstition that the girl who succeeds in getting it will be the next to catch her man and be wed. But so often nowadays, bridal attendants are already married, so there isn't much thrill in catching the bridal bouquet to see if it will live up to the old belief. The thoughtful bride of today usually sends her bouquet to a grandmother or perhaps a sick relative or friend who cannot be present at the wedding.

Questions—Etiquette—Answers

CHURCH: R. H. M. of Charlottetown, P.E.I.: "When in church, is it all right to talk to the person sitting beside you?"

ANSWER: Talking and whispering in church are to be avoided unless it is absolutely necessary, then very quietly and inconspicuously.

HELPING HAND: Mrs. T. S. Vernon, B.C., wants to know the answer to this: "Should a woman give a man a helping hand when he is putting on his overcoat? For instance, if a hostess is standing in the hall when a man guest is leaving, should she help him into his overcoat?"

ANSWER: No. There is quite a definite rule of etiquette about this and it decrees that a hostess does not assist a man on with his overcoat. A secretary in the office may assist her boss into his overcoat but otherwise women are supposed to let men struggle into overcoats by themselves.

Readers are invited to write Claire Wallace about Etiquette problems. Address Claire Wallace, care The Grimsby Independent, Grimsby, Ontario, Canada. Replies will appear in this column.

Niagara Packers Limited

WHAT NEXT?

What's scarce now? Lumber, nails, plumbing or wiring equipment... the list is endless. No sooner is one problem solved than another comes along. The scarcity of materials has delayed the completion of many new Hydro projects. This, combined with a greatly increased demand, has limited the power supply.

Never has Ontario used so much electricity as now... not even during the record-breaking war years. At other half million horsepower could be utilized almost immediately if available. Hydro plants to generate that much and more have been planned and are under construction. Some additional power will be delivered this year... more in 1948. But it will be 1950 before the big new Hydro plant on the Grava river can start to pour its 360,000 horsepower into the Hydro system.

Why so long? It's because of the shortage of building supplies... a tremendous quantity of construction materials and electrical equipment must be sought and bought to build such a plant. The Ottawa river development alone requires a concrete dam nearly half a mile long, in addition to the power house and the thousands of items of electrical equipment, small and large. Building a new power plant often creates an entirely new community. It takes a long time... especially when materials are as scarce as they are now.

Few places in the world have as much electricity available per person as Ontario has. However, it must be conserved so that new homes and industries will all receive their share... so that the wheels of our factories will be kept turning and maximum employment and production maintained... use Hydro wisely and there will be enough for all.

Hello Homemakers! "Cook" and be cool with a refrigerator! Take short cuts to cool summer cooking by storing in your electric refrigerator an adequate supply of crisp vegetables and flavorful fruits, chilled fruit juices and even dough and batter to be baked on short notice. Frozen desserts and gelatin dishes are increasingly popular and for this reason the refrigerator is taking its rightful place in the kitchen alongside the range. We think your family will enthusiastically demand encores when you serve the following well-tested recipes.

VANILLA ICE CREAM

1 1/2 cups top milk, 2 eggs, 1/2 cup sugar, 1 tsp. cornstarch, 1/2 tsp. salt, 1/2 pint (1 cup) cream, 2 tps. vanilla.

Scald milk. Beat egg yolks, adding sugar and cornstarch. Combine with hot milk and cook over water 20 to 25 minutes, stirring occasionally. Cool. Beat egg whites until stiff. Add salt and fold into custard; add vanilla. Pour into tray and freeze to a heavy mush. Remove from electric refrigerator and beat until fluffy. Fold in whipped cream and return to freezing tray to finish freezing.

VARIATIONS

Peach Ice Cream: Flavor vanilla ice cream with 1/2 tsp. vanilla and 1/2 tsp. almond extract, and add 1 1/2 cups mashed and sweetened peaches when folding in whipped cream.

Peanut Brittle Ice Cream: Add 1/2 to 3/4 cup crushed (rolled) peanut brittle to vanilla ice cream when folding in whipped cream.

Macaroon Bisque: Flavor vanilla ice cream with sherry flavoring and add 1/2 cup almond macaroon crumbs when folding in whipped cream.

ORANGE FLUFF

3/4 cup granulated sugar, 2-3 cup cold water, grated rind 2 oranges, 1 cup orange juice, 1/2 tsp. granulated gelatin, 1 tsp. cold water, 2 cups whipping cream.

Cook together the sugar and the 2-3 cup cold water in a saucepan on low heat until a little of the mixture dropped in cold water forms a soft ball. Remove from the heat and add the grated orange rind, 1/4 cup orange juice, and the gelatin which has been sprinkled over 1 tsp. of the cold water. Cool thoroughly. Whip the cream with a hand beater or an electric mixer at high speed until stiff, then add the orange mixture. Pour 3/4 cup orange juice into the bottom of a freezing tray of an electric refrigerator. Pour the orange cream mixture on top and freeze without stirring until set. Serves 6 to 8.

REFRIGERATOR ROLLS

1 cup boiling water, 1 cup shortening, 3/4 cup sugar, 1 1/2 cups

bran, 1 1/2 tps. salt, 2 eggs, 2 cakes compressed yeast, 1 cup lukewarm water, 7 to 8 cups flour.

Pour boiling water over the shortening and stir until melted. Add sugar, bran and salt and mix well. When cool add beaten eggs, yeast cakes dissolved in the lukewarm water. Add flour and knead until smooth. Put dough into a bowl and spread with a little melted shortening and cover with wax paper. Set in the refrigerator until ready to use. Cut off small amounts of the dough and shape in balls and place in grease muffin pan. Cover and let rise in a warm place until double in bulk, about 1 hour. Bake in preheated electric oven (400 degrees) for about 20 minutes. Makes 3 1/2 dozen rolls.

TAKE A TIP

1. Wet the bottom of freezing tray containing cream mix to make freezing quicker.
2. Beat ice cream mix as soon as it is frozen to a mush; then return to refrigerator.
3. Excessive sugar or syrup prevents freezing.
4. If the refrigerator needs defrosting, freezing will be slow.
5. If ice cubes have an unpleasant taste, the trays and freezing unit should be thoroughly cleaned. Lemons and oranges should be placed lower in the cabinet if the aroma is of the oily citric nature.
6. As soon as an ice mixture is frozen firm, move the indicator half way back to normal.

THE QUESTION BOX

Mrs. T. H. asks: How do you pasteurize milk?

Answer: Heat milk in double boiler to 143 degrees and keep it at that temperature for 30 minutes; or bring the milk to full rolling boil, then take off stove instantly, but as soon as froth subsides heat again to boiling point and repeat once more. The milk in either case should be cooled quickly in another pan surrounded by ice or running water.

Mrs. M. M. asks: How do you suggest storing bread at the cottage to prevent moulding?

Answer: Keep bread in loosely

wrapped wax paper and place in a ventilated, clean tin. A tiny glass of baking soda left in one corner of the box absorbs any aromas.

Mrs. J. B. asks: How to prevent cloudy crabapple jelly?

Answer: Add a tablespoon of lemon juice to three quarters of prepared apple juice to clear jelly and help it jell quickly.

Anne Allan invites you to write to her c/o The Grimsby Independent, Grimsby, Ontario, Canada. Send in your suggestions on homemaking problems and watch this column for replies.

A man who wouldn't think of sitting through a double-feature is the one who wouldn't miss a double-header at the ball park.

RIGHT IN THE SWIM

By ALICE ALDEN

There has never been such a season for bathing and beach wear, with everything finding a pretty place in the seashore scene, from specially treated metallic fabrics for the woman who has to be different, right through to pretty cottons for the fashion-wise girl who really wants to enjoy every moment at the shore. Brilliant designs a really pretty suit of woven checked cotton. It is a two-piece ruffled tailor-made set off by a ruffled bra with an adjustable bow joiner.

FARM FAMILY LIVING ON THE BROAD PRAIRIES

One-fifth of the rural people in Canada are in the provinces of Alberta and Saskatchewan. The story of their rapid settlement, particularly in the first decade of the present century, when the population increased over 400 per cent, is a story of novelty, excitement, enterprise, and endurance. Now, writes Florence M. Edwards in "Farm Family Living in the Prairie Provinces," the story is merging into a more sober tale: one of struggle for stability, for security on the farm, for a reasonable standard of living.

In order to obtain first-hand information on such questions as what have the rural families achieved in their short history of settlement; what kind of living is provided by farms in various kinds of farming regions; is housing adequate; what of community facilities; how much do prairie families spend for a living; how do they spend it, and so on, more than 620 prairie housewives were interviewed and farm homes in three contrasting farm regions, in Central Alberta, and in Central and Northern Saskatchewan, were visited during 1942 and 1943.

Miss Edwards, who was formerly Agricultural Economist with the Dominion Department of Agriculture, has collated and co-ordinated the information given in the Dominion Department of Agriculture Publication, No. 787, "Farm Family Living in the Prairie Provinces," a copy of which may be obtained on request from the Dominion Department of Agriculture, Ottawa.

With so many people looking for it, no wonder it is easy to find fault.

A small town is the one that uses a farmer's pasture for the local air port.

Irish Linen Casuals
For Resort Wear

BOLD gray and white umbrella stripes form the full skirt of this Irish linen two-piece summer casual dress for town and country wear. White and gray bands form a vestee front. A row of gold buttons ornaments the blouse and fly front. When without a hat it is the perfect sport dress; accompanied with white shoes, hat and bag it can go anywhere.

PRIZE HERD FOR U.K.—150 purebred Holstein heifers, the largest shipment of cattle to the United Kingdom since before the war, are shown in the lower photograph moving into Canadian National Railways cars when they recently left Muroo Farms at Lindsay, Ont., for Montreal en route to the United Kingdom. In the top picture, the prize herd is being inspected by W. E. Watson, manager of the C.N.R.'s Montreal Stock Yards, and W. J. Murphy, owner of the farms, just prior to their transfer to the ship. The heifers will restock dairy farm herds depleted during the war.

CONTINUATIONS

From Page One

MYSTERY OF TOWNSHIP

line behind the meter. Water Rates Collector Herb. Gillespie was instructed by council to make an immediate check regarding this matter and it is quite possible that all water connections in the township will be given a special check-up.

Road Supt. Thos. Mackie reported that work on Lake street from the town limits east to Nelles Road had been completed. The road had been roughed up and coarse and fine stone placed on it to the extent of 341 tons. The road is now in excellent shape for travel. Pearl Street from Park Road to the Clinton township line is being similarly reconstructed.

A motion by Bartlett-Mitchell that the council build a set of steps down the bank to the Nelles Road swimming beach at a cost of \$250 to \$300 was lost. A motion by McNiven-Aikens, that the council build this set of steps on a 50-50 basis with the Lions Club, if agreeable to the club, was passed.

Deputy-Reeve Aikens brought up the question of having a proper dog bylaw in the township, in the thickly populated areas. This was the cause of considerable discussion with the matter being left in abeyance.

A by-law governing the operation of tourist and trailer camps in the township was passed.

The Winona Farm Labor Co-Operative Co. were granted permission to build and move buildings for the operation of a farm service camp on a three acre plot that they recently purchased on the south side of No. 8 Highway just east of the Saltfleet township line.

Keith McEwin was granted a building permit for a one storey house on Park Avenue, Grimsby Beach, at a cost of \$2,500.

The following letter was received by council, but they took no action on it:

"I am asking the council to withdraw the building permit granted to Grimsby Farm Labor Co-Operative, because two members of council are financially interested in the grant of the permit, therefore

the grant is illegal." Relief accounts for June amounted to only \$20.

Council were informed that there was considerable congestion being created on No. 8 Highway west by the operation of fruit stands which constitutes a menace to the travelling public. Supt. Mackie will look into the matter.

In future all culverts constructed in the township will be paid for by the property owner concerned.

Council will meet on Saturday afternoon to consider the applications in hand for the position of Township Clerk and Treasurer and the appointment of a new official.

CAUSE OF RHEUMATIC

by a proper understanding, can avoid unnecessary fear.

Some of the early symptoms of rheumatic fever are very vague and may include slight fever, nose-bleeds, loss of appetite, failure to gain weight, rapid heart, and pain (often vague and fleeting), in joints and muscles. If your child has any of these symptoms which you cannot readily explain, then, you should consult your physician. More definite signs are small nodules under the skin, painful and inflamed joints, high fever, and chorea or St. Vitus' dance.

The cause of this disease is unknown but is probably related to the streptococcus germ which causes scarlet fever, sore throats, etc. There is no specific cure for the disease, and rheumatic fever may attack a child again and again. The disease generally occurs between 5 and 15 years of age. The danger from the disease is damage to the heart. The damage results in leaking valves in the heart, this leads to overwork of the heart muscle.

The treatment of the disease is strictly a medical problem and usually involves a long period of bed rest. By means of certain signs and tests, the doctor can tell when the illness has cleared up sufficiently to allow the child to lead a more normal life.

It is hard to estimate how often this disease occurs since it is not reported like measles or diphtheria. However, it is estimated that there are probably 1,000,000 persons in Canada and the United States with rheumatic heart disease, the most serious after effect. This causes over 40,000 deaths each year. In 2 Canadian cities it was found nearly 1% of school children had rheumatic heart disease.

How can a parent guard against rheumatic fever? Make sure that your children follow the rules of good personal hygiene, and have regular medical examinations at frequent intervals. Rest, play, sunshine and nourishing food will help to build up children so that they may ward off sickness.

Children who have had rheumatic fever are frequently treated as cripples. In fact, they have been referred to, as "cripples who do not limp." Unless the heart is severely damaged the child should be allowed to live normally within a range of activities prescribed by your physician.

Thus, rheumatic fever is a dangerous and prevalent infection which can often be prevented but, when it occurs, needs prompt and prolonged attention from your physician. If this attention is not obtained it may result in a crippled or dead child.

In the old days a woman could sing while she was ironing. She wasn't listening to a soap opera.

CONTRACT LET

and about 1488 feet of 10" combined sewer, and about 987 feet of 6" laterals, with Manholes and Catch Basins.
 (c) The construction of about 1,050 feet of 4" concrete sidewalk, in Aitchison Terrace Subdivision of the Town of Grimsby. The following tenders were received and discussed by council: Pilkey-Noble Construction Co., Hamilton, sewers \$17,328, sidewalks \$966, no tender for water mains.

Scott-Jackson Construction Co., New Toronto, sewers \$10,891, water mains \$5,010, no tender for sidewalks.

Damore Bros., Niagara Falls, sewers \$8,130, water mains \$1,655, town to provide materials. No tender for sidewalks.

Lorenza Construction Co., Niagara Falls, sewers \$5,432 water mains \$4,179, sidewalks \$1,050.

Robb Construction Co., Hamilton, sewers \$9,133, water mains \$5,212, sidewalks \$1,491.

The tender of the Lorenza Construction Co. was accepted by council as the figures were practically the same as the estimate made by Engineer Ure.

A motion was passed instructing Clerk Bourne to prepare a by-law for the construction of sewers on Gibson avenue from the brow of the hill westerly to Main street to connect with the main sewer on Murray street. This bylaw will be read and passed at the special meeting to be held on July 25th.

This will be a 10 inch sewer and the estimated cost is \$3,400.

Dr. J. M. Mather was present at the meeting and addressed the council, thanking them for the fine co-operation and assistance that he had received from that body during his two years as M.O.H. of West Lincoln Health Unit. Dr. Mather leaves next month to assume his new duties as Chief Medical Officer of the Halton Health Unit.

ONTARIO BATTLES THE TERRIBLE TRAFFIC TOLL

Traffic accident prevention efforts across the province have been stepped up to meet the huge increase in summer motor traffic and the carefree holiday mood of the millions who ride or walk the streets and highways. Analysis of news press clippings on traffic safety reveal some twenty centres in Ontario with community programs operating along with the Department of Highway's province-wide program.

From the records, the July total of accidents and deaths is likely to be even worse than last month. The July accident toll has been higher than the June totals every year since 1937, (see attached chart).

Ontario's traffic is now building up to summer peaks with an enormous addition to U.S. cars.

Border entry points are reporting American cars coming in at new record highs.

Last year, added to the traffic flow of Ontario's 720,000 licensed vehicles, 900,000 American cars came in on tourist permits and an additional 24 million vehicles on local traffic permits to operate in border areas.

From now until after Labor Day, what is probably the world's largest non-resident motor traffic will be moving on Ontario roads and highways and the need for "care, courtesy and common sense" in driving and walking is of paramount importance.

The man who made it through the winter by starting fires with gasoline will probably get drowned this summer rocking the boat.

LONDON ARRIVAL

Dr. H. Porter, Ontario minister of mining and development, begins work on the pile of correspondence which awaited him on arrival at Ontario House in London after a flight from Canada. He is in London to complete arrangements for the immigration of 7,000 Britons to Ontario by air. Immigrants are to be selected by Ontario House.

E. Bruce and Mrs. Murdoch are holidaying at Minden.

Harold and Myrtle White were weekend visitors to Batavia, N.Y.

W. W. "Gillie" Gilmore of Hamilton, was looking up old friends in town on Monday.

Miss Catharine Morrison and Miss Isabel Stevenson are holidaying in Detroit, Michigan.

Mr. and Mrs. Percy of Hollidays Cove, West Virginia, were recent guests of the latter's parents, Mr. and Mrs. M. St. John, 25 Mountain St.

Mrs. Nettie Whittaker of Hamilton, was a weekend visitor with Alex and Mrs. Scott, Main west.

Miss Ethel Hewitt of Toronto, an old Grimsby girl, was the weekend guest of Alex and Mrs. Scott, Main west.

Mr. and Mrs. John Waite of Hamilton, formerly of Penticton, B.C., were visiting last week with their cousins Isalah and Mrs. Pielt after an absence of 31 years. While here John was trying to locate where he and his parents lived over 50 years ago. He decided it was near the railway on Depot St.

Donald Catton and Donald McAlonen have taken positions as Equipment Assistants with the R.C.A.F. in Goose Bay for the summer months, working in the Equipment Stores. The two young men left Grimsby on Sunday for Montreal, completing their journey on Thursday by flying from Montreal to Labrador.

Developing and Printing

Carm and Mrs. Millyard, John and Marilyn are holidaying at Cedar Wyde.

We regret to report that Roy Farrell is very ill in West Lincoln Memorial hospital.

Mrs. E. Page of Toronto has been visiting Mrs. J. Grant, Main St. West, for the past two weeks.

Mr. Eddie Chenier left yesterday for Hull, Quebec, to attend the funeral of his sister, Mrs. May Martineau.

Councillor Archie Chivers, who is confined to West Lincoln Memorial hospital, is slowly making progress.

Mrs. S. Murphy returned on Tuesday from Niagara Falls where she has been visiting friends for the past week.

Mrs. C. H. Rahn has returned from a ten day visit with Mr. and Mrs. T. H. Miller and Alex Miller of Timmins.

Mr. and Mrs. Michael McGinty and Marie of Hamilton are spending a week's holidays with Mr. and Mrs. Roy Smye.

Miss Donna Rahn is spending the summer with Mr. and Mrs. T. H. Miller and Alex Miller of Timmins, where she is taking figure skating lessons at the McIntyre Arena.

Mr. and Mrs. George Wiley have returned to their home at Russell Point after spending two weeks vacation with Mr. and Mrs. Harry L. Wilson, Elm. St.

Mr. and Mrs. Eddie Chenier and Mary Jo, Mr. and Mrs. Clifford McCartney and Marilyn, and Miss Reta McCartney spent Sunday with Mr. and Mrs. Frank Stewart, Calstar.

Mr. E. G. Heise, Miss Elizabeth Heise and Mr. and Mrs. W. H. Heise of Preston, and Mrs. E. R. Riley of Peterborough, were Sunday visitors with Mr. and Mrs. H. G. Mogg and Mrs. Kamacher. Kitch.

Friends of Mr. L. W. Sovereign of Grimsby Beach, will be pleased to learn that after a confinement of over a year in the hospital, he was able to pay a short visit to his home on Central Avenue, last Friday afternoon. He was accompanied by his son, Mr. Lewis Sovereign and his wife, of Waterford; Mrs. Sovereign also accompanying them on the trip coming from and going back to the hospital.

Beaver Club

The regular meeting of the Beaver Club will be held at the home of Mrs. F. Hitchman, 27 Robinson St. North, on Wednesday evening, July 23rd at 8 o'clock. Members are reminded that the social part of the evening takes the form of a Box Lunch.

SUMMER SCHOOL

St. Helen's Roman Catholic Church, located in Maple Grove School road, R.R. 1, Beamsville, is holding a two weeks' Summer School of Religious Instruction under the leadership of Father O'Donnell, Grimsby, assisted by Sister Adeline and Sister Mary Niva of the Order of St. Joseph, St. Catharines. There are 25 pupils in attendance and on the last day there will be a first communion, followed by a closing breakfast party with games and donation of prizes for the children.

A man has reached the evening of life when he is not interested in attending a leg show.

WRAPPED IN BEAUTY

By PRUNELLA WOOD

Even the best grade poets never thought of anything better to say of a gal than that she walked "wrapped in beauty." Probably, too, they weren't as specific as this model, who has draped about six yards of forty-six inch pure silk gauze about her, the gauze liberally embroidered with pure silver and gold thread motifs.

The stole is an Indian sari, or sari, as we often spell it, the Hindu woman's shawl which she drapes over bosom and waist, and ver often over her head besides. We are all for stoles in the fashionable Occident these days, and it is a fine thing to be able to add these handsome Indian stoles to our collections. So light they are that one can use them over the coiffure without disarranging a hair, and really protect while pretending to fascinate. Wonderful colors, too.

SOCIAL ACTIVITIES AT INN

Misses Edna Corry and Lillian Schantz, Patterson, N.Y.; Mrs. Simon Grove, Pembroke, Ontario; Mr. and Mrs. L. W. Snodan, Cambridge, Mass.; Mr. and Mrs. E. Troffer, St. Joseph, Mich.; Mr. C. A PLEASANT VISIT

The Editor of The Independent had the pleasure last Saturday night of meeting, at the home of Alec and Grace Scott, an old school pal in the person of Miss Ethel Hewitt, now of Toronto.

Ethel is a daughter of the late ex-Reeve Jas. A. Hewitt, who for many years was a prominent businessman in Grimsby. The old Hewitt home is now the triple house on Depot street opposite the Library.

Mr. Hewitt for years conducted a planing mill and lumber yard on the rear portion of the property. Then a disastrous fire in the early 1900's wiped the works out and Grimsby, then as now, magnanimous to a degree, refused to assist him to rebuild and as a consequence he went to Beamsville, received assistance and gave Beamsville its first planing mill and lumber yard, which is now the Shafer Lumber Co.

Incidentally, the late Jas. A. Hewitt became Reeve of Beamsville and it was he who presented the Golden Key to the Old Boys' and Old Girls' at the first Beamsville Re-Union in 1906. If I am wrong on that date, check me up, Jim Sinclair, for you were Secretary of the Re-union.

It was awfully swell to meet you again, Ethel.

GREEN TREES GUESTS

Mr. and Mrs. L. M. Hart, Letetz, Penn.; Mr. and Mrs. C. T. Risdale, Detroit, Mich.; Squadron Leader and Mrs. Norm Nunn, Toronto; Dr. and Mrs. M. T. Lehman and children, Great Neck, Long Island, N.Y.; Mr. and Mrs. Edwin Wagner and son, Hamburg, Pa.; Mr. and Mrs. J. H. Mullally and daughter, Auburn, N.Y.

Mr. and Mrs. J. C. Hill, Miss E. A. Jefferson, Toronto; Mr. William T. Jenks and Misses B. and C. Jenks, Rochester, N.Y.; Mr. and Mrs. Carl Myers, Jackson, Mich.; Mr. and Mrs. Clyde Cusson, Saranac, Mich.; Mr. and Mrs. R. Hollingsworth, Port Clinton, Ohio.

In Memoriam

BALLARD—In memory of Cpl. Reginald Ballard, killed July 15th, 1944, at Caen, also his pals Cpl. Carman Hurst, July 13th, 1944, and Cpl. John Hearn, August 12th, 1944.

Worthy of remembrance.

—Mr. and Mrs. A. Henderson and Jim.

The Demerling brothers who have been on construction work at Goose Bay, Newfoundland, for the past three years are home on furlough visiting their mother, Mrs. B. Demerling, Maple avenue.

Many a man gets in low spirits as the result of high financing.

LIVING ROUTINES

Anti-social customs and practices which make healthful living difficult for those who try to follow proper living routines, are deplored by Canadian health leaders. As an instance they point to the situation which arises when young children are allowed to play outside until late hours—preventing other youngsters from getting much-needed rest.

Declaring that many of man's worst habits—such as late hours—are cemented in time-honoured custom, the health authorities agree that better times won't come until the public approves and practises, healthful living routines.

SUTHERLAND—Mr. and Mrs. John N. Sutherland (formerly Lorraine Rycroft) are happy to announce the birth of their son, Norman Paul, born July 7, 1947, at Mount Hamilton Hospital.

Thursday, July 17th, 1947.

THE GRIMSBY INDEPENDENT

PLAYTIME PRETTINESS

By ALICE ALDEN

Lovely Janis Carter of Columbia Pictures wears this attractive playsuit designed by Monroe Lloyd. It is one-piece and combines a street scene with black jersey. The back of the blouse-top, the set-in belt and pocket flaps are all black. The suit buttons down the back, while the shorts feature a little cigarette pocket at the hemline.

Nuptials

BRATTON—MORRIS

In the Grimsby Baptist Church on Wednesday, July 9th, at 3 o'clock, the wedding was solemnized of Muriel Winnifred, daughter of Mr. and Mrs. M. J. Morris, and Mr. Kenneth Arnold Bratton, son of the late Mr. and Mrs. W. P. Bratton, with Rev. George A. McLean officiating.

The church was beautifully decorated for the occasion with baskets of delphinium, Madonna lilies, roses and orange blossoms, with an arrangement of draped white ribbon streamers and orange blossoms. Miss Greta Ormiston played the wedding music.

The bride, given in marriage by her father, wore a street length dress of white corded silk jersey, with long silk net gloves, white hat with veil and carried a white Bible from which hung white ribbons caught with pink snap-dragons. Her only attendant was her sister, Miss Wilda Morris, who was gown in a street length dress of blue eyelet embroidery with matching hat and carried a colonial bouquet of pink roses and pink spirea. The groom's attendant was Mr. Harry Scott, of Lisle, Ontario, and Mr. John Morris ushered.

After the ceremony a reception was held on the spacious lawn at the home of the bride's parents.

Leaving by motor for a honeymoon at Wasaga Beach, the bride wore a white dress, black coat, white accessories and a corsage of red roses. On their return Mr. and Mrs. Bratton will reside in Grimsby.

EASON—MacDONALD

On Wednesday afternoon, July 9th, in Fifty United Church, Winona, the marriage took place of Catherine, daughter of Mr. and Mrs. F. MacDonald, of East Horsley, Surrey, England, to J. Harvey Eason, son of Mr. and Mrs. J. S. Eason, of Grimsby. The Rev'd. Fred Manning officiated.

The bride was given in marriage by Mr. H. D. Walker, uncle of the groom. She wore a street length frock of pale turquoise crepe, and a headress of red roses and white feathers. Her flowers were red roses.

The bride's attendant, Miss Olive Jones, of Winona, wore silver grey jersey in street length, with a nosegay of sweet peas and roses, and a headress of roses and blue feathers.

The groomsmen were Lloyd Kirkley of Niagara Falls, and the ushers were Clifford Basley and Denton Walker, cousin of the groom, both of Winona.

The church was decorated for the occasion with pink and white flowers. During the signing of the register Miss Florence Kirkley, of Niagara Falls, sang "Because" and "Still as the Night."

Following the ceremony a reception was held at the home of the groom's parents, with about forty-five guests present from Toronto, Niagara Falls, Niagara-on-the-Lake, Winona and Grimsby. The groom's mother received in a pale blue printed jersey with black accessories, and wore a corsage of white daisies.

The young couple left on a motor trip to Montreal and Northern Ontario, the bride travelling in black

printed silk with black accessories, and corsage of red roses. They will make their home in Winona.

WRIGHT—LAWSON

In St. Paul's United Church, Dundas, Saturday afternoon, at 3 o'clock, the wedding was solemnized of Norma June, daughter of Mr. and Mrs. Norman W. Lawson, Dundas, formerly of Grimsby, and Mr. Alan Malcolm Wright, son of Mr. and Mrs. Thomas M. Wright, of Hamilton.

Rev. J. Lorne Graham officiated at the ceremony. White standards of delphinium and gladioli decked the church, with a large bouquet on the Communion table. Small clusters of flowers and ribbons marked the guest pews.

Given in marriage by her father, the bride wore a graceful white French lace and satin gown, styled with a round neckline, net insert with a round neckline. The skirt was fashioned on classic lines and her long, tight-fitting sleeves were pointed over the hands. A tiara of seed pearls held in place a long veil of net illusion, and the bride carried a cascade bouquet of red rose and white satin.

Attending their sister were Misses Betty and Ena Lawson, both gowned in white organza, fashioned with a bustle effect, their mittens being of contrasting heavenly blue lace. Pink roses and ribbons formed their headresses, and their old fashioned nosegays were of pink roses. The groomsmen were Dr. William E. Glass, while those ushering the guests were Messrs. Edward Evans and William Bryan, all of Hamilton. Miss Grace Cooper presided at the organ, and Mrs. Dorothea Durst, of New Hamburg, sang I Love You Truly and Because.

At the reception, which was held in the Mural Room of the Royal Connaught Hotel, 50 guests were received by the mother of the bride and the mother of the groom. The former wearing a heavenly blue gown with pink Milan straw hat and corsage of pink roses, while the latter was in a dove grey gown, with blue hat, and also had roses as her corsage.

Later, the couple left for a wedding trip to New York, the bride travelling in a navy blue summer silk poplin suit dress, with accessories in neutral shade, her hat being of neutral plastic with a navy blue bow. Her flowers were Briar-cliff roses. The couple will reside in Hamilton.

You can tell if the children are unusual. They permit parents to finish the sentence before interrupting them.

It is possible to bleed to death without suffering pain, says a medico. Maybe that is what they mean by a painless tax.

Welcome

West Lincoln - Births -

July 15th—To John and Mrs. Phisessen, R.R. No. 1, Beamsville, a daughter.
July 15th—To Willoughby and Mrs. Moyer, Beamsville, a son.

Though weather conditions have not been too satisfactory this week, the lessons in water-safety are continuing at Grimsby Beach and Nelles Beach. With eight instructors in attendance the 125 children are receiving careful attention. And it is not too late for others to join the classes.

At Nelles side road: 2 o'clock classes for Juniors; 3 o'clock for intermediates and 4 o'clock for Seniors. Every day except Wednesday and Sunday.

At Grimsby Beach: 11 o'clock classes for Juniors; 2 o'clock for intermediates and 3 o'clock for Seniors. Every day except Saturday and Sunday.

A safety patrol of 15 has been formed among the swimmers and these are being given instruction in the task of assisting the lifeguards and instructors. These youngsters wear special badges and are another safe-guard for the thoughtless and too venturesome child.

The new equipment purchased by the Red Cross is practically all in its place and proving most satisfactory.

The first tests are being held in about ten days and the public is invited to be present and see for itself the advantages being given to the children of this district in this important project of your Red Cross.

PRINCESS TRADITION BREAKER

Regal Queen Mother Mary called the prattling toddler "Bambino!"

Costermongers, "pearly kings," miners, mill hands and chambermaids—her loyal adulators in childhood and adolescence—early bowed down Elizabeth Alexandra Mary Windsor, whose betrothal to Lieut. Philip Mountbatten was announced last week, to plain, folksy "Lilibet."

But it took a wistful United States newspaper man travelling with the recent South African tour of the Royal Family to call her "Oomph!"

With binoculars he had watched her race across sandy beaches, plunge, dive, and splutter with all the healthy nonchalance of youth—in a form-fitting bathing suit. Sighed the blase reporter:

"She could be in Hollywood!" "Lilibet" may have been born to the purple—but Sir Stork did not choose a dream castle for her birth. In fact, he had a hand in starting Princess Elizabeth off as a tradition breaker. He preferred delivery of the heiress presumptive to a comfortable but not palatial house on Burton street, Mayfair.

Choice of the Burton street home of the Earl and Countess of Strathmore—her maternal grandparents—was itself prophetic. It drew attention to the extent of the Royal Family's abandonment of regal formality.

Before she could babble baby talk, Elizabeth's golden curls and bright eyes had made her the glamor lass of Britons. She could not go for a perambulator airing through Mayfair without being nearly mobbed.

At Queen Elizabeth's insistence, the Princess was taken to Glamis Castle, Scotland. No snobbish motive prompted the nursery change. Instead, the Queen quietly remarked that a baby, royal or not, was entitled to a carefree childhood.

"It is the birthright of a baby," she told friends, "and I want my daughter to have that birthright."

"The onus of her position will be forced on her soon enough," Princess Elizabeth likes dancing in "public places" and before reaching 1 had started a "stepping out" campaign which included visits to dance-and-dine spots, night clubs and thriller-dinner plays.

Royal dignity? Splendid, but how can rhumba with it? Elizabeth answered that quite simply. She learned to rhumba—and thought it jolly.

Newspaper men who covered the Royal Family's visit to South Africa said Elizabeth looks comely in tan-suntan, that is. But they agreed she can choose orthodox ways of getting that sun-missed glow.

She clambered down from the royal train during tea on the engine's footplate. Natives cheered her. She waved.

Princesses are very human. Like most of us, they leave varied impressions with people they meet. But a diplomat was struck by her charm—"she's a dream," he said.

London Claridges' Supper Club frequenters thought she was "built" when she joined a Conga line and did the "Boomp-a-Daisy."

Obituary

MAJOR CALEB TUCK

A resident of Grimsby Beach for the last four years, Major Caleb Tuck, retired Salvation Army officer, died suddenly of a heart attack at his home on Thursday last.

In his 65th year, he was born in Newfoundland on April 14, 1883, and had resided in Ontario for the last 23 years. He was formerly stationed at Toronto, Windsor, Burwash and St. Catharines, and was widely known in connection with Salvation Army work. His wife is his only survivor.

Funeral services were held at the Boys' Tabernacle, Grimsby Beach, at 8.30 o'clock Friday night. Interment was made in the Salvation Army plot in Mount Pleasant cemetery, Toronto.

JAMES W. DALEY

(St. Catharines Standard)
One of this city's oldest and most highly esteemed residents, in the person of James William Daley, beloved husband of Agnes Prowten Daley and father of Hon. Charles Daley, Minister of Labor, passed away early Saturday morning at St. Catharines General Hospital, following an illness of several months.

Born in England, he had reached the advanced age of 87 years and enjoyed excellent health until a few months ago. A resident of this city for the past 65 years, by his genial manner he made friends of all with whom he came in contact and who will extend their sincere sympathy to the bereaved family.

In religion, he was a member of St. Barnabas' Church, his main interests in life being his church, home and family.

He is survived by his sorrowing widow, two daughters, Mrs. Arthur Burley of Niagara Falls, Ont.; Mrs. Donald Brown of Newmarket, Ont.; and three sons, Hon. Charles Daley of Toronto, Ollie L. Daley of Niagara Falls, Ont.; and Arthur E. Daley of Niagara-on-the-Lake. Eleven grandchildren also survive.

DELMAR CLAUDE TRAVIS

Delmar Claude Travis, of Vinemount, died at his home Tuesday morning.

A lifelong resident of Vinemount, he was a member of the United Church.

Surviving are his wife, the former Bertha Joslin; his parents, Mr. and Mrs. George E. Travis; a son, Garnet, at home; seven brothers, Ellis, Vance and George, all of Hamilton; Lloyd of Fonthill, Clarence of Grimsby, Clyde and Earl, both of Tweedside; three sisters, Viola of Hamilton, Annie of Tweedside, and Grace of Freeton.

The remains are resting at the J. B. Mariatt Funeral Home for interment on Thursday at 2 p.m. Interment will be in Tweedside Cemetery.

By a fellow wants to live by sweat of the other man's brow.

MOUNTAIN CLIMBING IN ALBERTA

Many schools concentrate on the famous "3 R's"—readin', 'ritin' and rithmetic. However at Jasper public school in Alberta, the technique of safe mountain climbing stands high in the school curriculum. Jasper youngsters, born in the high altitudes of the Canadian Rockies, play with ropes, hobnails and spikes instead of mitts, marbles or mashies. Joe Weiss, veteran alpinist, started the class some years ago and it has produced hundreds of skilled mountaineers, many of whom rendered the Allies invaluable service during the war. The present class of 40 students is instructed by Ernie Niederer, skilled alpinist who is giving his class a practical demonstration of climbing technique. A blackboard charts a path for the climbers. They must get the "feel" of climbing. When graduation day comes round it's not a diploma but a Jasper Park badge that brings smiles to qualifying youngsters in one of the most unique schools in the Americas.

SPORTOLOGY

(By Bones Livingston, Sportologist)

BENEFIT BALL GAME—There is probably no doubt in anyone's mind that GORDIE BUCHAN is the best pitcher in the Fruit Belt Softball League. However, a week ago last Monday night Gordie had the misfortune to break his collarbone in a game with Smithville. The accident happened when he tripped while running to first on a short hit. Now the point is this. Tomorrow night the boys of the Legion are running up against Smithville again, in a Benefit game for GORDIE BUCHAN. The tickets are 25 cents each and the more people that turn out the more help Gordie gets with his doctor bills. So come on Grimsby, let's show a really good pitcher that we appreciate him.

RESULTS OF THE HEAT WAVE—LINNEY LYMBURNER has closed The BOWLAWAY until September. . . . There was great excitement in the North last week. LITTLE WHIZZER caught a fish. . . . It is doubtful if GORDON BUCHAN, the ace twirler of the LEGION team, will pitch any more ball this season. He dislocated his shoulder in that tumble he got last week. He is off work and will be for some time. . . . JACK KNOWLES of Beamsville, retained the singles championship of the Ontario Lawn Bowling Association last week when he showed the way to a large field with four wins and 72 plus 1. . . . Regular schedule of the FRUIT BELT League is finished. Now for the play-offs. . . . Last Wednesday night in the FRUIT BELT League STONEY CREEK defeated GRIMSBY MOUNTIES by a score of 7-6. On Friday night WINONA took GRIMSBY LEGION 9-5. STONEY CREEK and STOP 60 got into a squabble and darkness descended over the land before the game was finished. GRIMSBY MOUNTS defeated BEAMSVILLE 12-11. JORDAN failed to field a team for the third consecutive time and as a result have been thrown out of the league and will not participate in the play-offs. PREXY TOM COLLINS has announced that the play-offs will start on Monday night next. See announcement elsewhere in this paper.

OLD TIMER COMES BACK TO TOWN—Back in the winter of 1922-23 the PEACH KINGS hockey team had several boys from the lower Ottawa Valley on its roster. Bernie Sullivan, Len Urquart, Benny Villeneuve, Geo. Doucett. They all went back to the Valley except George. A visitor to town on Monday was Urquart after an absence of 24 years. Len was a fair kind of a hockey player in those days, as were the rest of the boys. He played for some years in the States after leaving here but says that he parted company with a hockey stick several years ago. There were not many of the old gang that he knew left in town for him to shake hands with.

TO THE YOUNGER GENERATION—The local Chamber of Commerce has arranged for one of the best physical instructors in this district, Donald Aude, to conduct organized sports at the High School grounds every Tuesday and Thursday evening during the summer. This is being done for you, the younger people of the town. From what I have seen up to the present you are not taking advantage of this opportunity for the attendance has been very light. Basketball, baseball and various other sports are being provided for YOUR pleasure so let's see you up at the High School grounds to-night, and every Tuesday and Thursday nights for the rest of the summer.

RACE TRACK BETTING PUZZLE TO NOBLE LORD

The third Marquis of Salisbury, who was three times prime minister of the United Kingdom, covering a period of 14 years between 1885 and 1902, was noted for his aloofness. He trusted the people and was a true constitutional statesman, but he despised so-called democracy. Despite the judgment of Bismarck, that he was "a lath painted to look like iron," he was a man of much ability, displayed in politics, literature and science.

But he certainly wasn't familiar with the popular tendencies and pursuits of his own times. On one occasion the topic of race track betting was discussed in the House of Lords and the prime minister offered his contribution.

"I am told," said he, "that a common sight at these places is that of one of these racing experts, surrounded by a group of sportsmen 'giving him tips'."

When this was greeted with an amused smile from some of those peers whose familiarity was probably greater with the turf than

with politics, his lordship naively enquired: "Is my terminology incorrect?"

THE GREAT MCGURK

Wallace Beery as a big hearted, blustering, two fisted gent, a characterization that has kept him at the top in box office bets for years, is back again—this time with ten year old Dean Stockwell. Beery and young Stockwell steal the limelight in a story that is crammed with human interest—the drama of an ex-champion who adopts a homeless waif. Edward Arnold who as a saloon overlord, who keeps The Mighty McGurk under his thumb by threatening to expose him as a fake champ. Miss Mae Mahon, who returns to the screen again, plays the part of Beery's girl friend.

With such a cast headed by "Wallace Beery" how can the picture be anything but good. See it at the Roxy Friday and Saturday, July 18th and 19th.

It is said the human body is about 70 per cent water. Maybe that is why so many people ideas that are all wet.

A TREAT IN STORE FOR WRESTLING FANS

Fight fans from far and wide in the Peninsula will be making Beamsville Fair Grounds their goal on Saturday night when the newly formed Chamber of Commerce is sponsoring one of the highest attractions ever to come to this locality. It's to be a full-fledged professional wrestling match featuring in the main bout "Honest John" Katan and "The Body" Mike Sharpe. This is the first time such a show has ever been staged here and speculation has been running high all week as to whether there will be enough accommodation for the 2,500 fans who are expected to jam the grandstand and the ring-side seats. Ringside seats are still available from members of the Chamber of Commerce. See advt. in this issue for other details.

Promoting the show will be Sammy Sobel of Hamilton, in co-operation with Frank Tunney, Toronto matchmaker, who stages the famous wrestling bouts in The Maple Leaf Gardens. Guarantees have been put up by 25 members of the Chamber for the performers in the ring. All proceeds of this great show will go towards the erection of street signs in Beamsville. The first two bouts will have a time limit of thirty minutes each with one fall deciding the winner. The main bout will be a best two out of three affair, with one-hour time limit. This great attraction will star sharp at 8.45 p.m. so don't come late.

You can tell when things return to normalcy. You will be seeing "For Rent" signs on houses and business buildings.

SCHOLARSHIP PUPIL

Exactly a month before—June 12—Rolph had been presented with a scholarship by the Alexandra Home and School Association for being the best all-round pupil in the graduating class. Honor students from the graduates were selected by teachers, and Rolph won the scholarship after a vote among the pupils of the three highest grades of the school.

"He was a wonderful boy, well-liked by both pupils and teachers," said Principal J. F. Gracey Monday. Rolph had been a member of the school's junior soccer, hockey and softball teams, passed his Entrance examinations with honors and set a high example to other pupils of the school.

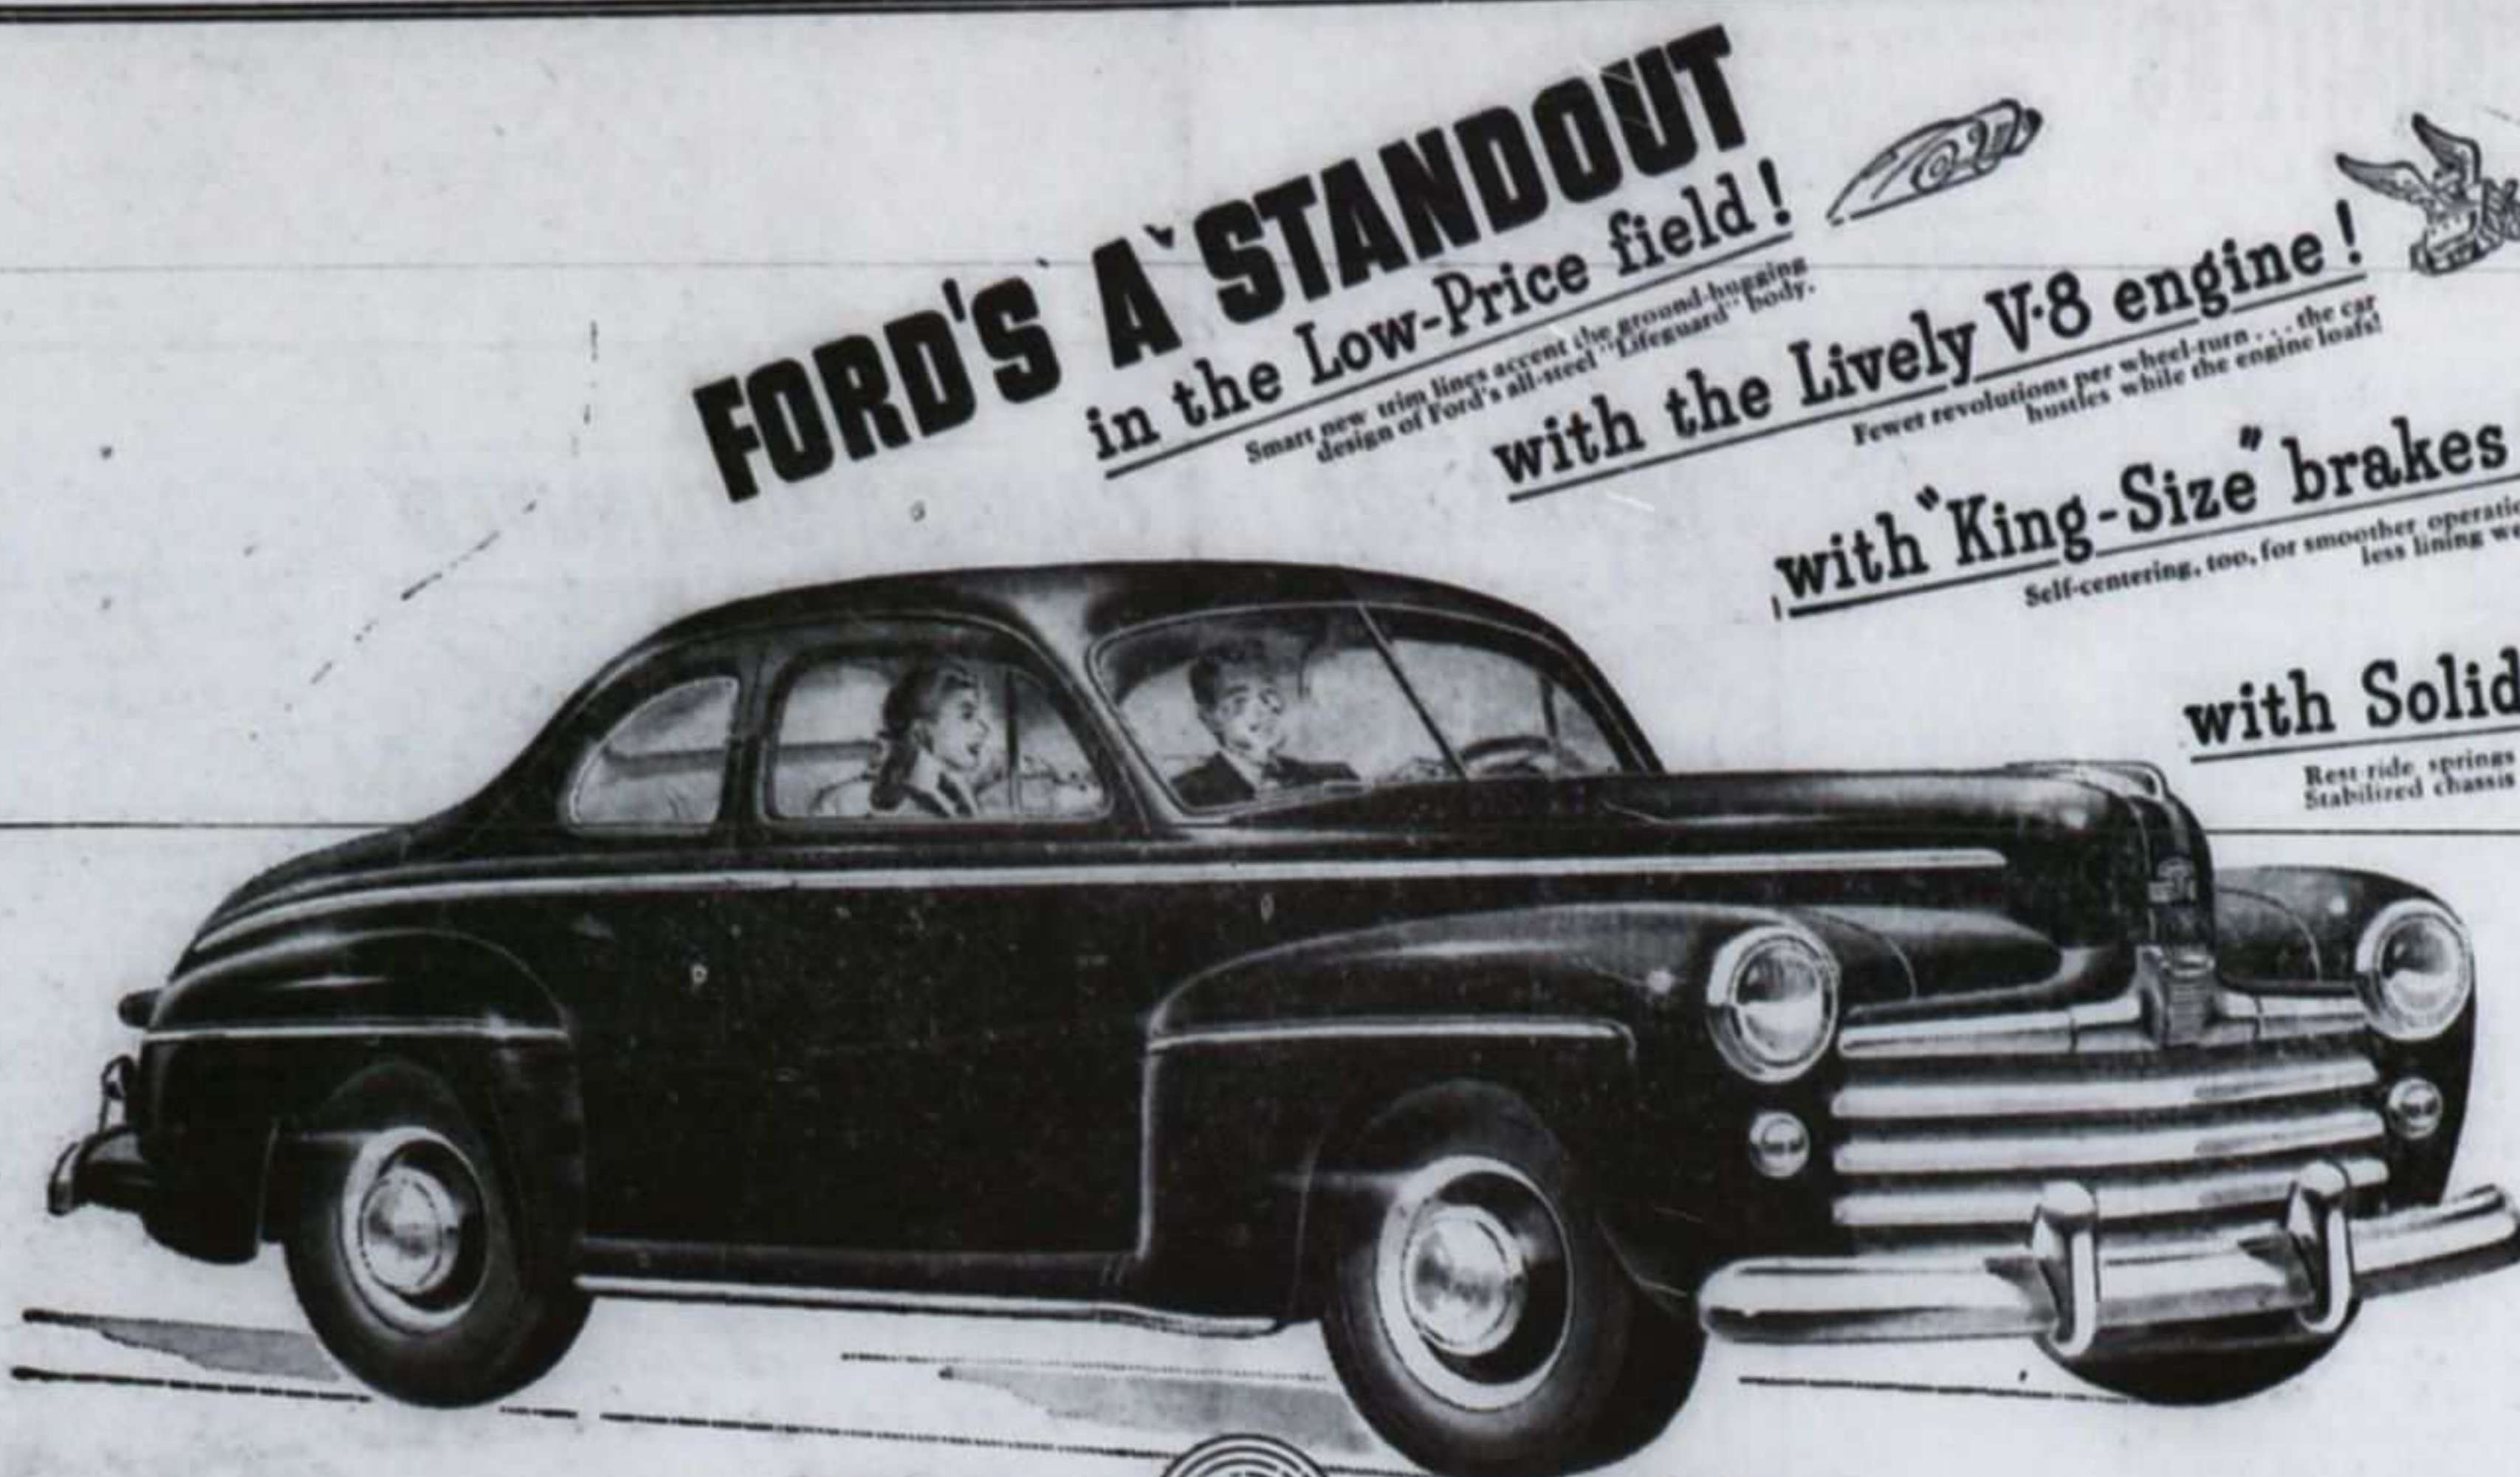

The scholarship was to be devoted to buying books when Rolph entered collegiate in the fall. His greatest ambition was to become a doctor.

It was the second time in three weeks that tragedy had struck the family. Just three weeks before, almost to the minute, Rolph's uncle, Douglas Smith, was one of two victims of shock when a motorboat containing five St. Catharines business men overturned in the Niagara River.

Rolph was born in Hamilton, but had lived in St. Catharines for the past four years. He was a member of the 17th, Welland Avenue, Troop of Boy Scouts, and was a member and faithful attendant at Grace Anglican Church and Sunday school.

Besides his sorrowing mother, he is survived by one sister, Yvonne and his grandfather.

The remains rested at the Hulse and English Funeral Chapel, where a private service was held Tuesday

Excess Profits Tax Act Standard Profits Claims

NOTICE

Recent amendments to the above Act provide that all standard profits claims must be filed with the Department of National Revenue before 1st September, 1947.

All applications are required to be in such form and contain such information as may be prescribed by the Minister and the Minister may reject an application that is not made in such form or that does not contain such information.

The prescribed forms (S.P.1) are available at all District Income Tax offices of the Dominion Government.

All pertinent information required on the form must be included or attached thereto in schedule form. Tentative or incomplete forms or those filed after 31st August, 1947, will not be accepted.

Department of National Revenue
Ottawa

James J. McCann, M.D.,
Minister of National Revenue.

at 2 p.m. There was a public service in Grace Church at 2.30, when Boy Scouts formed a guard of honor, and Rolph's former school chums acted as ball bearers. Interment took place in Mount Osborne Cemetery, Beamsville.

ARKELL PLANT

a lunch counter and rest room will be provided for the employees. The building is well lighted by electricity and by the large windows at the front facing the highway. The front is to be landscaped for the benefit of the passersby.

The plant is run by Mr. Arkell and his three sons, Arthur, Ronald and Roy. Arthur or "Buster" as he is commonly called is at present at school at the Ontario Agricultural College at Guelph where he is taking a course in food technology and eventually he will become manager of the plant. The other two boys are both working hard and their father has great hopes for their future.

A typical pack of fruit is first weighed in and then goes directly to the steamer where it is scalded. This steamer is run by a 100 h.p. boiler. From the steamer the pack goes to the processing tables where in the case of peaches the skins are removed and they are cut and placed in pans of water. These tables are three in number and are about 75 feet long to accommodate up to three hundred women. The pans of fruit are then moved on a conveyor belt, run by electricity, to the packing table where the fruit is packed in tins, either 20 ounce or gallon, and at the end of which is the large capping machine which seals the tins. The fruit is now ready to be cooked. This is in eight large retorts and the cans are cooled in a 75 foot cooling vat. From the cooling vat the fruit goes to the warehouse to be packed and shipped.

Some fruits, however, are handled differently to this. For instance Rhubarb of which the Arkell plant handled 100 tons this year. This product is shipped in from the Islington area and 100 tons is about a weeks work for this factory. The rhubarb is first of all washed and trimmed. Then it is taken to the blanching tables where all or most of the air is removed. It is then cut and packed in air-tight tins in water for shipping.

Last year the factory was just in its infancy and did not get started until late in the peach season. However, they did pack 20,000 cases of peaches and a few pears. This year they aim to handle about 1,000,000 pounds of peaches. At present the plant is just starting to handle sweet and sour cherries and the fruit coming in seemed to be first class in quality. During the winter the plant will not likely close down but will handle the canning of pork and beans and sauer kraut.

At the height of the season, Arkell Food Products employs about 250 people, last year they employed about 200 people. Working hours are usually from 7 to 6, but in the rush season they will probably increase to 24 hours a day.

The plant is modern and up to date from the brand new time clock to the powerful electric motors which run the conveyor belts and the big machines, and the growers of the district seem to appreciate this for those who patronized the

factory last year are mostly returning and moreover they seem to be bringing their friends.

SEVEN MAN BOARD

es; Roy Masterson, R.R. 2, St. Catharines; Grant Laundry, Beamsville; F. Glenn Reinke, Winona, and Charles F. Smith, R.R. 5, Hamilton.

Under regulations of the Farm Products Marketing Act, the board

is empowered to license processors, buyers and growers. Processors and buyers are licensed without charge, but growers will pay a few of 25 cents for each ton of grapes delivered to a processor and buyer.

The regulations provide for the appointment of a negotiating committee of six to make agreements respecting minimum prices, forms of contract, conditions of sale and fulfillment of contract. Three mem-

bers of this committee will be appointed by the board and three by the processors.

For purposes of the marketing scheme, the grape growing areas of the province are divided into seven districts as follows: District 1, Townships of Pelham, Thorold and Stamford; 2, Township of Niagara; 3, Township of Grantham; 4, Township of Louth; 5, Township of Clinton; 6, Townships of Grimsby

North and South; 7, Township of Saltfleet.

The present board will hold office until March 31 next, at which time elections will be held to decide the personnel for the following year.

A boy with too much nervous energy has a way of making an adult nervous.

Smile: As hard to find as a popular form of taxation.

"FOREST FIRE" after a painting by J. M. Hanes

All through the summer, Canada's fire-fighters wage a continual, tedious war against the forest fire—destroyer of priceless timber and wildlife, transforming beautiful recreational areas into charred, forbidding wastelands. Far more effective than the fire-fighter in preserving our forest wealth is the vacationer who prevents forest fires by observing the few simple rules of fire prevention.

* "With a crop that takes so long to mature, it is important that it be not injured or destroyed by fire. A large proportion of our Canadian forests are softwood or coniferous forests which are particularly susceptible to destruction by fire."

* An excerpt from—CONSERVATION AND FOREST FIRE PREVENTION IN CANADA by James Ruxton, one in a series of pamphlets published by The Carling Conservation Club.

PUDDICOMBE FARMS

are showing promise of being close to a full crop. Bartlett pears will not be a full crop, but like the Elberta peaches they are sizing up to such an extent that they will at least be a 75 or 80 per cent crop.

The six magnificent vineyards where the foliage is as green and as heavy as it is possible for it to be will all produce a 100 per cent grape crop. Currants are heavy, gooseberries are heavy.

Taking it all in all the Puddicombe farms will this year produce just about as near a full crop as they have ever produced and of the very finest quality that it is possible for man to produce.

To drive over these broad, beautiful acres is a revelation. Every inch of the 200 acres is a veritable garden bed. Jack Puddicombe has a standing offer of \$1 a weed for every weed that anybody can find in the orchards or vineyards.

It takes a lot of people and a lot of work to keep a fruit producing farm of this type in the lovely condition in which it is maintained. There are 12 permanent all-the-year-round men employed on this farm, the payroll for these men is over \$1,000 a month, and that does not include the free house rent,

free fuel, free fruit and vegetables that the married men receive. During the picking season the picking help runs close to 100 people and you can figure that that payroll is tremendous.

Manure is spread over the land by carloads. In fact up until a few weeks ago a very large herd of Hereford cattle was maintained on a separate 100 acre grain and hay farm on the top of the mountain to provide the greater portion of this manure. That herd has now been disposed of but will be replaced with a new and younger herd this fall.

Spraying is done by three of the largest spraying outfits that the Clarence W. Lewis and Son plant can produce, and that is the biggest in Canada. They are not done spraying on this farm yet. Plums and pears will still receive another spraying, if not two, according to weather conditions. Spray is put on the trees, bushes and vines of this farm by the thousands and thousands of gallons, that is one of the main reasons for the fine quality crops. Manure is the second reason coupled with the knowledge handed down to "Jack" by his late father-in-law, "Uncle Ed" Henry.

Two large tractor outfits and two teams of horses do all the heavy work on the place and they never have an idle moment except when the snow lays heavy on the ground. At that period the men are in the orchards with the pruning saws.

Very little of the crop from this 200 acres goes to dealers or processors. With the exception of gooseberries and currants, it practically is all sold direct to dealers in towns, villages and cities scattered all over Ontario and Quebec, and to some small extent to truckers of the better type. Grapes nearly all go to the Western Canada market in baskets.

In the big barn at the present time are stored 75,000 baskets and it is anticipated that the manufacturers will deliver another 25,000 baskets, if not more, before the crop is completed harvested. That would make 100,000 baskets and if they are all filled would just be a normal crop year for this farm. After a lot of mathematical work we find that 100,000 baskets of fruit if all loaded in Canadian National Railway cars would give you a solid high-ball fruit train 40 cars long and that is a lot of fruit in any man's country.

Jack brought me home in the Jeep and if anybody tells you those pygmies cannot travel, you contradict them. At Hagar's school he gave it the gun. When he hit the Woolverton mountain hollow he threw out the wings and we started to plane. That's when I began to yell. It was a nice trip anyway.

SUN-GLASS USE

The best medical advice is against use of sunglasses for night driving. Doctors say they will just provide an additional hazard. In the first place, sunglasses should not change the hues of natural colours, and their indiscriminate use tends to lower tolerance of the eyes for light.

Unless an eye-specialist has specially advised them, sunglasses should be worn, if at all, only during periods of exposure to sun-

AIRCRAFT PACKED AND SHIPPED TO CENTRAL AMERICA

Off to Central America in what is probably the largest wooden packing case ever made—it is 51 feet long—is a Miles Aerovan commercial aircraft aboard the Royal Mail Lines "Loch Ryan." The case, which cost about \$1,200 to build, occupies cargo space with 156 cars and lorries, part of the British motor industry's contribution to the export drive. The "Aerovan" will be used by its buyer in Barranquilla, Colombia. The packing case containing the "Aerovan" is shown being slung aboard the Royal Mail Lines "Loch Ryan" at London docks.

County Council

A short session was forecast Tuesday as Warden W. L. Patterson of Niagara-on-the-Lake opened the July meetings of the Lincoln County Council. The chambers of the council presented a brightened appearance today, the silken folds of a Union Jack and a Canadian Red Ensign gracing the wall flanking a picture of His Majesty George VI.

The council was requested to give approval to three resolutions of other counties in Ontario as the sessions were opened. Simcoe County has requested the Department of Health to consider the erection of more hospitals for incurables in Ontario and the Provincial County of Haliburton has asked the provincial government to contribute not less than eighty per cent of the cost of Children's Aid work in the province.

The third resolution which Lincoln has been asked to approve, passed by Perth County Council, arose out of the wet spring conditions which seriously hindered seeding operations. Perth has requested that the federal and Ontario governments make available to farmers and livestock feeders, feed grain of a standard and at a price rate that will produce livestock for food purposes at a reasonable remuneration.

The St. Catharines - Lincoln County Health Unit requested that the county use the latest population figures as a basis for their contribution rather than the population figures published in the provincial Blue Book. This action was requested since it is felt that the Unit was serving more people than the Blue Book would indicate, its figures being at least one or two years late.

The council was asked by St. Peter's Infirmary in Hamilton to consider making an increase in the per diem rate for the maintenance of county indigent patients. The hospital requested council to increase the rate to a figure of \$2.50 a day.

Lincoln was warmly thanked by letter by the West Lincoln Memorial Hospital for the 1947 grant of \$1,500. Following the reading of the correspondence by County Clerk Millward, the council went into committee to deal with matters pertaining to road administration.

LINCOLN FARMERS TO STAGE BIG PICNIC

A mammoth county picnic will be held under the auspices of the Lincoln County Federation of Agriculture and the Niagara Peninsula Fruit Growers Association at the grounds of Victoria Hall Park and the Vineland Horticultural Experimental Farm, Vineland, on Wednesday, July 23rd. Special features of the programme will be conducted tours commencing at 10 a.m. on the experimental farm to observe results of various experiments with fruits and vegetables. Methods of cultivation and use of cover crops. Baseball schedule will start at that time with Louth and Caistor boys team, and Clinton and Niagara Girls teams, playing softball. At 11:00 a.m. Niagara and Clinton boys teams will play and the Louth and Caistor girls teams. All rural people are invited to spend the lunch hour in the shady park from 12 to 1:00 p.m., each family bringing their own requirements. From 1:00 to 2:00 p.m. an address will be given in Victoria Hall by R. A. Stewart, Almonte, our Provincial Federation President, who has recently returned from attending the World Food conference in Holland. Everyone will be provided with a free ticket for a draw for three valuable door prizes of \$5.00 in value and a handsome prize will also be given to the family having the largest number who are present in the Hall.

From 2:00 to 4:00 p.m., standard and novelty sports' events will take place on the Rittenhouse School grounds, with \$50.00 in prizes. At 4:00 p.m. the final in the boys' softball games will be held and at 5:00 p.m. the girls' teams will play for their finals. A refreshment booth will be in charge of the county juniors committee. No admission charge. J. R. Stork is president of the Niagara Peninsula Fruit Growers Association and Jack Broderick is president of the Federation of Agriculture, and E. F. Neff is Secretary of both organizations.

LOCAL DEALER PRAISES NEW FARMALL TRACTOR

Ray McPherson of Grimsby Fuel and Supply, local I.H. dealer, has returned home after attending a special introduction and demonstration program of International Harvester Company's new, small, low-cost Farmall Cub Tractor at Hamilton.

Commenting on the Farmall Cub, after "getting the feel" of its operation Ray said:

"The Farmall Cub represents the latest step in the evolution of farm mechanization. Its development readily meets the power requirements of thousands of the nation's small acreage farmers, and the price of the tractor is only \$545.00 f.o.b. factory. Attachments and implements are extra.

Designed specifically for use by small general farms, industrial workers who divide their time between industry and the farm, truck farm operators, orchardists and large general farms needing auxiliary units, the Farmall Cub is being introduced into the Farmall tractor line in response to the desire of the small acreage farmer to compete on a comparable basis with farmers of larger tracts.

Pulling a single 12-inch moldboard plow, the Farmall Cub will plow up to 3 1/2 acres per 10 hours in most soils, and will cultivate one to four rows of crops at a rate of better than one acre per hour. And yet, the fuel consumption of its four-cylinder, four-cycle engine under maximum load is considerably less than one gallon per hour."

Despite its small size, which will be approximately two-thirds the weight and power of International Harvester's previous smallest farm tractor—the Farmall A—the Farmall Cub will be built with identical standards of materials and workmanship found in the company's largest tractors. The Farmall Cub weighs 1,200 pounds and has approximately 9 1/2 horsepower on the belt and 8 on the drawbar.

A full line of implements, engineered for every region, Ray McPherson said, are being produced at various company plants for use with the new tractor. They are: One and two-way moldboard plows, disk harrow, harrow plow, disk harrow, mower, corn planters, vegetable planters, corn cultivator, sugar beet and commercial bean cultivator, and a vegetable cultivator. All these tools, Ray said, are designed for quick change and easy operation and it won't be long before the farmers in this district will have the opportunity "To see and get the feel" of the new Farmall Cub in actual field performance."

JUNIOR FARMERS WILL HOLD GARDEN PARTY

The Lincoln County Junior Farmers are staging their Annual Garden Party on Friday, July 25, commencing at 8:30 p.m. DST on the Agricultural Grounds, Beamsville.

The Juniors' Garden Party has become famous for its type of high class entertainment and the programme this year promises to be even of a higher standard. Jerry LaBelle will act as Master of Ceremonies and a special act will be that presented by Al Emerson, black wire clown comedy. Other features will be a dancing sensation in the person of Dawn Elaine and other outstanding actors are Dorothy Day, beautiful singer; Jean and Jan, clever comedy team; Jack Ott, cowboy singer; Joan Taylor, acrobatic dancer; Charlie Dale, novelty numbers; with Freddy Godwin at the Piano. There will also be clowns to pep up the programme and the Beamsville Band will march down from the town at the commencement of the programme.

In the event of rain the programme will go on. It will be held in the spacious Community Hall of the Beamsville High School which has a seating capacity of 700 or 800.

Refreshment booths will be conducted by a special committee of the Juniors and admission charges are very reasonable.

The officers of the Association are: Leslie Tancock, Pres. and Alan Little, Sec. of the Junior Farmers. Nelda Romagnoli, Pres. and Della Morrison, Sec. of the Junior Girls, and Mrs. John Wiley, Treasurer of both organizations.

The successful politician is either sitting on the fence or straddling it.

It's darn odd nowadays if you can locate someone who will do the odd job.

J. R. STORK,

President of the Niagara Peninsula Fruit Growers' Association.

JACK BRODERICK,

President of the Federation of Agriculture.

E. F. NEFF, Secretary

BEAMSVILLE HAS A NEW POSTMASTER

Chester Elmer, of Grimsby, has been appointed postmaster at Beamsville, it was learned last week from the Post Office Department.

Mr. Elmer, a veteran of the late war, is the son of Mr. and Mrs. Chester Elmer, of Beamsville, and is a native of the village.

It is understood his appointment takes effect immediately and that he will assume his new position this week. He takes the place of John Sinclair, who resigned from the office three months ago for reasons of health after working in the post office some 30 years, 10 of them as postmaster.

Mr. Sinclair had continued at the office pending appointment of his successor.

This will also be recalled as an era when a man could put running water in the dog house and rent it. Some little boys grow to manhood while others are permitted to play with a gun.

BREVITIES

EVENTS and TOPICS
of the WEEK in
TABLOID

Monday, August 4th is Civic holiday.

Firemen's Carnival, July 31st, August 1st.

Peninsula Lumber yards and mill will be closed from July 26th to August 4th for holidays.

North Grimsby Voter's List for 1947 is off the press and a copy can be secured by applying to Clerk Thos. W. Allan.

Doug Scott and Harvey Lambert are going north to Magnetawan tonight on a fishing expedition. They are taking no less than 14 different style rods with them.

Harry Biggar of Fruitland, who is racing his string of harness horses under the floodlights at Batavia, N.Y., won a nice \$1,000 stake on Monday night with Celia Lee.

P. V. Smith, who some time ago purchased the real estate business of Miss Winifred Congdon, took possession on Tuesday morning and is now a full fledged businessman.

Supt. of Works Lawrie and his men are laying a new stretch of sidewalk from the Roxy theatre west to the fire hall. The piece in front of the Peach Dairy Bar will be widened by over a foot.

New blue, white trimmed awnings now grace the front of the Village Inn verandah with a large curving canopy out over the sidewalk from the steps leading to the front entrance. New awnings have also been placed on all dining room windows.

A total of 46,000 persons, a greater number than in any previous season, passed through the quarter mile Table Rock tunnel under the Horseshoe Falls during the past six months, General Manager Maxim T. Gray reported to the Niagara Parks Commission last week.

There will be no liquor store or retail brewers' house in Merritt. In answer to a request from the town asking information on whether one would be permissible, word was received from the Ontario Liquor Control Board stating that a sales outlet in town could not be granted due to the close proximity of the Thorold store to Merritt.

SUSPECTED SAUCER

IS GOOD FOR QUART

St. Catharines, July 14—Joseph Henry, fruit grower near here, thought he had found a "flying saucer" Saturday when he spotted something yellow lying in his orchard. Investigation proved it to be an ordinary yellow balloon, with a note attached to it by a string.

The note turned out to be the most interesting feature—it asked the finder to call a Niagara Falls, N.Y., grill to ask for Tony and "get a quart of liquor." Mr. Henry plans to collect his "bounty" as soon as possible.

EXPENSIVE CHERRIES

Paul Hartley, aged 21, of Barker St., Niagara Falls, broke a limb from a sweet cherry tree on the Niagara Boulevard, below Queenston, on July 6. In Magistrate H. D. Hallett's police court Monday he paid an \$11 fine for injuring and defacing a tree, contrary to the regulations of the Niagara Parks Commission.

Hartley wanted some cherries on a tree along the boulevard, so he broke the limb off and took it to the truck he was riding in and began plucking the cherries from the broken limb. A provincial officer spotted Hartley, seized the limb, and preferred the charge. Incidentally, it was a special type of tree on which three different varieties of cherries had been grafted and were growing.

Vinemount News

The regular meeting of the Rock Chapel W.M.S. was held in the church. The president, Miss Dorothy Bowlsbaugh presided, and welcomed the rector, Rev. Mr. Houslander, newly appointed minister of the Tapletown circuit and Kerr United Church. Vocal duet by Mrs. Stuart Jeffries and Mrs. Edna Carlton was enjoyed.

The annual Sunday School picnic of the Rock Chapel Church, Ridge Road, was held at Queenston Heights with 65 members attending. Mr. and Mrs. Douglas Jeffries and Mr. and Mrs. Albert Oldfield were in charge of all sports.

The ball game between Tweed-side and Tapletown played at Tapletown Monday night resulted in a draw after playing an extra inning. Another game is called for Thursday night. Batteries: Tweed-side—Muir and Campbell; McLaren and Gordon Purcell; Tapletown—George Krick, Joe Clark and John Lawrence.

Mr. and Mrs. Ivan Skidmore and three year old David of Halifax, who are motoring through to Vancouver, B.C., spent a few days last

week with Mr. and Mrs. J. V. Clarke.

TRAFFIC DEATH TOLL SHARPLY UP IN JUNE

Traffic accidents took the lives of 69 persons in Ontario in June and left many critically injured in hospitals.

Analysis of fatality reports appearing in provincial papers during the month shows—23 pedestrians killed, 18 drivers, 23 passengers, 4 cyclists and one person killed in a horse drawn vehicle.

The death and accident toll was spread widely across the province, totalling 16 more deaths than in May and 24 more deaths than in June of last year.

Ontario is however, making progress in traffic accident prevention but there is no justification for complacency. Ten years ago, in June, 1937, there were 75 persons killed and 1123 injured; in July of that year (1937) the death toll reached 101, the worst for any month in Ontario's history. Since then, the volume of traffic in Ontario, number of licensed drivers and vehicles has increased greatly and so also has the influx of U.S. drivers. The traffic toll is not however, as high.
